

STAFFORDSHIRE MOORLANDS DISTRICT COUNCIL ANNUAL GOVERNANCE STATEMENT 2012-13

SCOPE OF RESPONSIBILITY

Staffordshire Moorlands District Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. Staffordshire Moorlands District Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, Staffordshire Moorlands District Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, and which includes arrangements for the management of risk.

Staffordshire Moorlands District Council has approved and adopted a code of corporate governance, which is consistent with the principles of the CIPFA/SOLACE Framework *Delivering Good Governance in Local Government*. A copy of the code is on our website at www.staffsmoorlands.gov.uk or can be obtained from the Executive Director & Monitoring Officer. This statement explains how Staffordshire Moorlands District Council has complied with the code and also meets the requirements of regulation 4 of the Accounts and Audit (England) Regulations 2011.

THE PURPOSE OF THE GOVERNANCE FRAMEWORK

The governance framework comprises the systems and processes, and culture and values, by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of Staffordshire Moorlands District Council's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at Staffordshire Moorlands District Council for the year ended 31 March 2013 and up to the date of approval of the Statement of Accounts.

SIGNIFICANT GOVERNANCE ISSUES

During the 2012/13 financial year one significant governance issue has been identified. This is detailed in the table below together with the action that was and is being taken to address the issue:

Governance Issue	Action taken during 2012/13	Continuing Action
Development of Strategic Alliance Joint Services	<ul style="list-style-type: none"> • Further development of joint services under the strategic alliance with High Peak BC. A further full year of joint service internal audits was completed providing reasonable assurance that the systems of internal control were operating adequately and effectively. 	<ul style="list-style-type: none"> • Assurance is required that the Council’s systems of internal control continue to operate adequately and effectively. Internal Control is a responsibility of management.

We propose over the coming year to take steps to address the above matters to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in our review of effectiveness and will monitor their implementation and operation as part of our next annual review.
