

**Staffordshire Moorlands Local Plan – Schedule of Main Modifications February 2020**

**One MM per policy/paragraph**

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )   |
|--------------|------|--------------------|--|
| MM1          | 6    | 1.1                | The Staffordshire Moorlands Local Plan is a District wide development plan which replaces the Staffordshire Moorlands Core Strategy, Biddulph Area Action Plan (AAP) and previous Local Plan to provide a framework for delivering development for the period <u>2014 2016</u> to <u>2033 2034</u> .   |
| MM2          | 6    | 1.3                | This Local Plan comprises of the following:<br>A Portrait of Staffordshire Moorlands - a description of the District<br>The Challenges - a summary of the key challenges facing the District<br>The Vision – detailing what the Staffordshire Moorlands will be like in <u>2033 2034</u><br>Aims and Objectives – stating what the Local Plan is proposing to achieve<br>A Spatial Strategy and Strategic Policies – setting out the over-arching strategy and policies for the District<br>Development Management Policies – setting out specific measures to manage development<br>Strategic Development Site Policies - specific policy to guide the development of strategic sites <u>and others requiring bespoke policy</u><br>Implementation and Monitoring - a framework for how the plan will be implemented and monitored<br>Maps - for Leek, Biddulph, Cheadle and the Rural Areas which identify proposed sites and boundaries |
| MM3          | 14   | 1.41               | The Constellation Partnership is a grouping of local authorities and Local Enterprise Partnerships in Cheshire and north Staffordshire that have come together to maximise the potential benefits to the area arising from the proposed HS2 Hub Station at Crewe and related economic growth opportunities up to the year 2040. Land at Blythe Vale has been identified by the Partnership as an investment opportunity. Whilst a strategy has yet to be published, the Local Plan will seek to provide support to this initiative insofar as it relates to the timescales for the Local Plan up to the year <u>2033 2034</u> .  |

|--------------|-------|--------------------|--|
| MM4          | 40    | 6.1                | Whilst the vision sets out how we would like to see the District develop by <u>2033</u> <del>2034</del> , the main challenge will be how we can achieve this in a sustainable manner which delivers the necessary housing, employment, shopping and community facilities whilst ensuring that the District's valuable natural and built heritage assets and its character are not compromised.   |
| MM5          | 44    | Policy SS1         | Amend bullet 1 as follows: <ul style="list-style-type: none"> <li data-bbox="741 533 1729 632">• A mix of types and tenures of quality, affordable homes, <del>including starter homes</del>, to meet the needs and aspirations of the existing and future communities.</li> </ul>   |
| MM6          | 45-46 | Policy SS1a        | <p data-bbox="696 636 1196 667"><del>Delete Policy SS1a and supporting text</del></p> <p data-bbox="696 699 1402 729"><b><del>Presumption in Favour of Sustainable Development</del></b></p> <p data-bbox="696 761 1729 1018"><del>7.12 At the heart of the NPPF is a presumption in favour of sustainable development seen as "...a golden thread running through both plan-making and decision-taking." This policy sets out how the Council will work with applicants to facilitate development that improves the economic, social and environmental conditions of Staffordshire Moorlands. It also provides for the grant of planning permission in circumstances where there are no relevant policies or where relevant policies are out of date.</del></p> <p data-bbox="696 1050 1729 1158"><del>7.13 To achieve sustainable development, new development should be located in sustainable locations and contribute positively to the social, economic and environmental improvement of the area, in accordance with policy SS1.</del></p> <p data-bbox="696 1190 826 1220"><b><del>Policy 1a</del></b></p> <p data-bbox="696 1252 1402 1283"><b><del>Presumption in Favour of Sustainable Development</del></b></p> <p data-bbox="696 1315 1729 1391"><del>When considering development proposals the Council will take a positive approach that reflects the presumption in favour of sustainable development</del></p> |

|--------------|------|--------------------|---|
|              |      |                    | <p><del>contained in the National Planning Policy Framework. It will always work pro-actively with applicants jointly to find solutions which mean that proposals can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions in the area.</del></p> <p><del>Planning applications that accord with the policies in this Local Plan (and, where relevant, with policies in neighbourhood plans) will be approved without delay, unless material considerations indicate otherwise. Where there are no policies relevant to the application or relevant policies are out of date at the time of making the decision then the Council will grant permission unless material considerations indicate otherwise – taking into account whether:</del></p> <ul style="list-style-type: none"> <li><del>• Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework taken as a whole; or</del></li> <li><del>• Specific policies in that Framework indicate that development should be restricted.</del></li> </ul> |
| MM7          | 47   | Policy SS2         | <p>Settlement Hierarchy</p> <p>Towns – these are the largest settlements comprising of Leek, Biddulph and Cheadle which accommodate half of the District's population and the majority of the District's services and facilities. The spatial strategy seeks to focus future growth in these settlements and to strengthen their role as service centres. These settlements will be defined by a Development Boundary.</p> <p>Rural Area Larger Villages – these are the most sustainable settlements in the rural areas which generally have a good local social infrastructure, some local employment opportunities and good accessibility to the towns and larger centres. These villages also have an important role in terms of serving and supporting their immediate surrounding rural areas and smaller villages. The spatial strategy</p>  |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )   |
|--------------|------|--------------------|--|
|              |      |                    | <p>focuses the bulk of the rural development in these settlements and seeks to ensure that they are sustained and promoted as service centres. These settlements will be defined by a Development Boundary. It is recognised that there is a significant range amongst these villages in terms of their size and facilities and it is proposed therefore that the scale of development in each area should be relative to their current size and infrastructure capacity.</p> <p>Rural Area Smaller Villages– these villages generally have a poor range of services and facilities and it is often necessary for local residents to travel outside the village for most of their daily needs. Development on a large scale would be unsustainable in these villages, as it will generate a disproportionate number of additional journeys outside the village and may undermine the spatial strategy. However, it is recognised that these settlements have a limited role in meeting the development requirements for the District which may assist in maintaining the vitality of the smaller villages. These settlements are not defined by a Development Boundary and only limited development of an appropriate nature will be allowed. <u>Where relevant, green belt policy will also apply.</u></p> <p>Other Rural Areas – this comprises of the open countryside <u>where development is normally unacceptable</u> and green belt where further development is generally inappropriate. Within these areas there are some groups of houses and hamlets which are not identified as ‘smaller villages’ because <u>of</u> their predominantly open character and loose-knit nature. They also contain major developed areas which may be suitable for appropriate development or redevelopment.</p> |
| MM8          | 48   | 7.22               | <p>In order to address the objectively assessed needs for housing in the District the Local Plan proposes 6,080 dwellings for the period <del>2014 2012</del> – <del>2033 2034</del> (320 per year) which is expected to meet the projected household increase for the District over this period. <del>Although</del> the Core Strategy required an early and</p>  |

|--------------|------|--------------------|--|
|              | 49   | 7.23               | <p><u>comprehensive review of the Core Strategy for the period 2016 – 2031 the plan period is 2014 to 2033 as it more closely reflects the evidence base and provides an adequate timeframe.</u> <del>Although the Local Plan period is 2016 to 2033-2031, the calculation of housing requirements backdates to <u>2014</u> 2012 in order to take account of the shortfall of housing provision that has occurred in recent years.</del></p> <p>The proposed level of provision will enable the Council to:</p> <ul style="list-style-type: none"> <li>• fully meet demographic housing needs</li> <li>• help support an increase of over 800 full time equivalent (FTE) jobs across the plan period</li> <li>• help address the affordable housing need.</li> </ul> <p>This requirement is seen to be "aspirational but realistic" as required by the NPPF when considered in the context of an historic average delivery rate of <u>161</u> <del>195</del> homes per year. It is deliverable in the terms of suitable housing land and is not considered to give rise to significant landscape impacts including on the setting of the Peak District National Park. It provides a more balanced range of social, economic and environmental effects as set out in the Sustainability Appraisals.</p> |
|              | 49   | 7.24               | <p>The requirement for 6,080 dwellings is a target and should not be seen as an absolute ceiling as there needs to be flexibility to ensure there is a continuous 5 year supply of deliverable land at all times in accordance with the NPPF. The Council will monitor the amount of development over the plan period to ensure there is a five year housing land supply. <u>The land supply calculation applies a 20% buffer to reflect persistent under delivery and applies the 'Liverpool method' to spread the housing shortfall up to the year 2033. The shortfall in completions is high (788 at March 2019) and it is considered to be unrealistic to apply the 'Sedgefield method' and meet the shortfall over five years which which would</u></p>   |

|--------------|------|--------------------|--|
|              | 49   | 7.26               | <p><u>give a very high annual requirement.</u></p> <p>The provision of employment land is based on the 2014 Employment Land Study and Update report published in 2017. The SHMA and Employment Land Studies have been co-ordinated and based on common <del>the</del> data and scenarios in order to better understand the relationship between housing and employment and to support an appropriate balance of development. The 2017 report identified a need for <del>13 to 27</del> <u>14 to 32</u> hectares of employment land across the District to <del>2034.2033</del> <u>2034.2033</u> In order to provide a balanced level of employment and housing, an employment land requirement of <del>27</del> <u>32</u> hectares is proposed. As with the housing requirement, this level of development is towards the top of the range of identified needs and will help to support the growth of around 800 FTE jobs (435 in B-use class jobs).</p> <p><u>It is not possible to meet identified development requirements without Green Belt release. The adopted Core Strategy anticipated that Green Belt release would be necessary with a commitment for a comprehensive review of the Green Belt in Biddulph.</u></p> |

|--------------|------|--------------------|--|
|              | 49   | 7.28               | <p><u>In the preparation of the Local Plan, the Council considered alternatives including inviting relevant neighbouring authorities to accommodate some of the District's requirements, allocating a high density site in Biddulph and alternative options for the distribution of development within the District.</u></p> <p><u>Whilst these measures reduced the amount of Green Belt release, some release of land is still required in the District to support the development requirements and associated economic and social benefits for the District. Accordingly, it is considered that exceptional circumstances exist for the principle of Green Belt release. The site specific exceptional circumstances for individual Green Belt release are set out in Chapter 9.</u></p>  |
|              | 50   | Policy SS3         | <p><b>Policy SS3</b></p> <p><b>Future Provision and Distribution of Development</b></p> <p>Provision will be made for at least 6080 additional dwellings (net of demolitions) to be completed in Staffordshire Moorlands during the period <del>2014 2042</del> to <u>2033 2034</u>-an annual average of 320 homes per year. Sufficient deliverable land will be identified to provide at least 5 years of development at all times.</p> <p>The Council will <del>review</del> <u>monitor</u> the annual development rate <u>and manage supply</u> to ensure that future provision will continue to adequately meet identified needs and reflect development potential. Provision will be made for at least <del>27</del> <u>32</u> hectares of additional employment land in Staffordshire Moorlands (excluding the Peak District National Park) up to the year <del>2033</del> <u>2034</u>. Provision will be made for new retail, transport, recreational, community and tourism facilities and services to meet the identified needs of settlements within Staffordshire Moorlands (excluding the Peak District National Park) up to <del>2033</del> <u>2034</u> as set out in the Area Strategies. Development will be located in accordance with the Spatial</p> |

|              | 51   | 7.30               | <p>and monitoring schedules to assess performance and the need for management measures.</p> <p>The objectively assessed need for housing as identified in the Strategic Housing Market Assessment relates to the District as whole. As such, this includes the parts of the District that lie within the Peak District National Park. The Peak District National Park Authority have their own adopted Core Strategy which governs development across the National Park. Due to the constraints and purposes of the National Park, the Core Strategy does not include housing requirements. However, in recognition of the fact that the identified housing requirements for Staffordshire Moorlands includes parts of the National Park, the National Park Authority has agreed to an allowance of 100 dwellings being identified in the housing land supply for the Staffordshire Moorlands Local Plan. (3) This allowance reflects long terms annual average housing completions in the parts of the District that lie within the National Park. Whilst the Peak District National Park Core Strategy does not allocate land for housing, the allowance will be factored in to the windfall allowance for the District and housing completions and commitments within the National Park will be monitored accordingly. The table below identifies the net housing requirement for the</p> |

|              | 52   | 7.31               | <p>This <u>Policy SS4</u> sets out how the net housing requirement of <u>3763 3859</u> will be met across the District up to the year <u>2033 2034</u>. Sources of future supply include allocations as set out in Policy H2 and windfall allowances for each area based on past trends. Windfall sites will be considered in the context of the Spatial Strategy and Policy H1. From the end of 2017, the Council <u>has been</u> <del>will be</del> required to publish and update a Brownfield Register of sites that are suitable for housing development. If appropriate, the Council also use the Brownfield Register to grant some of the sites on it with "Permission in Principle". This potential additional source of housing land supply will be considered in the next iteration of the Local Plan.</p> |      |      |                |                                  |            |                  |

|--------------|------|--------------------|--|
|              | 53   | 7.33               | <p>The Core Strategy incorporated a "slippage allowance" of 10% of the housing requirement for each area to allow flexibility in the supply. This was based on an assumption that 10% of sites would not come forward as anticipated. <u>The Local Plan also proposes to include a slippage allowance of 10% to be applied to commitments and factored into the housing trajectory.</u> <del>This allowance is no longer incorporated into the housing calculations as it is considered that the proposed approach to monitoring and housing supply as set out in the Local Plan provide a greater degree of flexibility than the Core Strategy. Furthermore, in Biddulph and the Rural Areas, the slippage allowance placed greater pressure on the need to release land from the Green Belt.</del></p> |
|              | 53   | 7.34               | <p>The 2017 Employment Land Requirement Study Update identified the need for up to <del>27ha</del> <u>32ha</u> of employment land by the year <del>2031</del> <u>2033</u>. The report also considered the type of employment land that would be required in terms of B1, B2 or B8 use class related development. The review recommended that 50% of the requirement should be for B1a/B1b (office, R&amp;D) use with the other 50%</p>   |

|                         |   |                    | <p><u>maintained in accordance with the trajectory.</u> The adequacy of supply (in terms of five year supply of housing and in meeting planned housing delivery targets over the full plan period) will be assessed and monitored through reviews of the Strategic Housing and Economic Land Availability Assessment (SHELAA) and progress will be reported in the Annual Monitoring Report. <u>The Council will closely monitor the delivery of residential windfall sites and affordable housing to ensure that it is meeting expected levels.</u> If necessary the Council will review the Local Plan to bring forward additional sites for development.</p> <p><b>Neighbourhood Plans</b></p> <p>In order to assist in meeting the development requirements for the Local Plan, Neighbourhood Plans should maximise opportunities for housing growth in sustainable locations. The following table sets out the housing requirements for parishes preparing a Neighbourhood Plan. These requirements are a minimum and may be subject to review as part of the District's overall review of plan delivery against its housing requirement. Neighbourhood Plans should also seek to provide as a minimum the residual employment land requirement for their area. Neighbourhood Plans should demonstrate that they can support the housing requirement through the provision of allocations and/or policies which support the development of windfall sites. The methodology used to calculate the housing requirement is set out in Appendix 11 and will be used to calculate requirements for new Neighbourhood Plans.</p> <p>In relation to employment, Neighbourhood Plans should provide at least the same amount of employment land as identified in the Local Plan for the Neighbourhood Area.</p> <table border="1" data-bbox="701 1283 1621 1382"> <thead> <tr> <th data-bbox="701 1283 1173 1382">Neighbourhood Plan Area</th> <th data-bbox="1173 1283 1621 1382"><u>Minimum Net Housing Requirement 2017</u><br/>- 2031 (dwellings)</th> </tr> </thead> <tbody> <tr> <td data-bbox="701 1382 1173 1382"></td> <td data-bbox="1173 1382 1621 1382"></td> </tr> </tbody> </table> | Neighbourhood Plan Area | <u>Minimum Net Housing Requirement 2017</u><br>- 2031 (dwellings) |  |  |

| MM10                         | 57     | 7.43               | In order to deliver the housing requirements for Leek set out in Policy SS4 it is estimated that there will need to be a minimum of <del>945</del> <u>4045</u> additional dwellings to be provided in the town. This requirement will be met through the allocated sites, windfalls or the small sites. The Council recognises that it needs to provide a range of opportunities to enable the market to respond to the targets set for the town and to address key infrastructure and regeneration needs. In practical terms, this means providing for different types of housing development in a variety of locations including greenfield development on the edge of the urban areas. A cluster of housing sites located off Mount Road has been identified as an opportunity to make a significant contribution towards the housing needs of the town. This development will be supported with additional infrastructure, including additional school capacity and transport improvements.      |                 |     |                   |    |                 |    |                              |        |                  |       |                |       |
| MM11                         | 58     | 7.45               | Policy SS4 details an employment land requirement of <del>8.4ha</del> <u>9.6ha</u> for the Leek area up to <del>2033</del> <u>2034</u> . Employment provision will be met through the expansion of existing employment areas to the south of the town and Leekbrook which have good access to the road network. These are considered to be the most sustainable locations for employment development and will minimise the impact of development on the countryside and residential areas. In response to Leek's residual employment land requirements Policy SS3 of the 2014 Core Strategy identified 'Broad location EM2' east of Brooklands Way Leekbrook, for future employment allocation (dependent on the need for further employment land provision across the town). Despite being a smaller village Leekbrook is closely related to Leek (falling within the same Ward), and it is considered that <u>the LEEK EM2 allocations across in the village can contribute towards the future</u> |                 |     |                   |    |                 |    |                              |        |                  |       |                |       |

|              |      |                               | <p>1. New tourist, visitor and cultural accommodation, attractions and facilities should be developed in locations that offer, or are capable of offering either:</p> <p>A) good connectivity with other tourist destinations and amenities, particularly by public transport, walking and cycling; or</p> <p>B) in locations in or close to settlements where local services, facilities and public transport are available; or</p> <p>C) in areas specifically identified for tourism development in the Churnet Valley Masterplan or other relevant documents.</p> <p><u>2. In exceptional circumstances,</u> Developments in other locations may be supported where a rural location can be justified.</p> <p><del>2.</del> New accommodation, attractions and facilities should:</p> <p>A) support the provision and expansion of tourist, visitor and cultural facilities in the rural areas where needs are not met by existing facilities; and</p> <p>B) all development shall be of an appropriate quality, scale and character compatible with the local area, protect the residential amenity of the area, enhance the heritage, landscape and biodiversity of the area and shall not harm interests of acknowledged importance.</p> |
| MM2<br>0     | 108  | Policy H1 and supporting text | <p><u>8.46 Policy H1</u> <del>This policy</del> seeks to ensure that an appropriate range and type of housing is provided which meets identified needs arising from changes in population structure, including special needs <u>for the elderly of an ageing population</u>, and promotes higher quality, more sustainable housing design and layout. It is proposed to address this through a range of measures and requirements. In tackling these issues the proposed policy approach will be contributing towards the delivery of not only local priorities but also national housing agendas.</p>  |

|--------------|------|--------------------|--|
|              |      |                    | <p>8.47 This policy is <del>primarily to</del> <u>also ensures</u> that <del>an appropriate range and mix of</del> housing, including affordable housing – is provided to meet the needs of the existing and future population. It reflects government guidance to create sustainable, inclusive and mixed communities and to make efficient use of land. Collaborative working between Local Planning Authorities, local communities, stakeholders, developers and house builders is also a key principle underlying the NPPF.</p> <p>8.48 The range, type and mix of affordable accommodation required on development sites will be determined by a combination of the results of housing needs studies, <u>strategic</u> housing market assessment, information from the waiting lists, <u>neighbourhood plan evidence relating to housing</u>, consideration of existing housing stock, local housing market information as well as any other available information including the constraints of sites.</p> <p>8.49 Housing for special groups will also be needed to meet the future increase in elderly persons across the District and the needs of those with a learning or physical disability – this may be in the form of sheltered housing, extra care homes <del>or flexicare</del> or supported housing.</p> <p>8.50 In order to address the changes in population structure, new homes should where possible be designed to provide flexible, accessible accommodation that</p> |

|--------------|------|--------------------|--|
|              |      |                    | <p>is capable of future adaptation to meet the differing and changing needs of households as they experience life events. Accordingly, new developments should aim to meet the needs of an ageing population by adhering to the <del>optional technical housing standard for access and the new</del> nationally described space standard <u>and applying the optional space and accessibility standards referred to in footnote 46 of the 2019 Framework. The Council is to allow for consideration of the scope and merit of introducing the optional standards and the extent to which they are applied as a percentage of the number of compliant units on a site-by-site basis. For example, the Council may look to achieve the optional space and accessibility standards on all dwellings for a development specifically designed for older people. Conversely, the conversion of a historic building to residential use may not be practical for the optional standards to be applied at all. For some applications financial viability may also be an issue.</u></p> <p>8.51 The Self-build and Custom Housebuilding Act 2015 (as amended by the Housing and Planning Act 2016) places a duty on District Planning Authorities to maintain a register of those wishing to acquire a serviced plot of land for self-build or custom-build projects and have regard to the register when carrying out their planning functions. There has been a low level of interest to date however the Council will keep this under review and where a demand exists, qualifying sites will be required to make a contribution. The Council's Annual Monitoring Report will monitor information from the Self-build Register to assess the demand for this type of accommodation in the district.</p> <p>8.52 Details of the Council's requirements for sustainable design and construction are set out in Policy SD1 and the accompanying supporting text.</p> <p>8.53 It is essential that all applications for planning permission for new dwellings in the countryside are scrutinised thoroughly to avoid new isolated homes in the countryside unless there are special circumstances in accordance with Government guidance. In the case of occupational dwellings the proposal will be required to meet functional and financial tests to demonstrate the essential need</p> |

| MM2<br>2   | 114  | Policy H3 and supporting text | <p data-bbox="696 1032 1729 1326">8.55 The limited supply of, and high demand for, housing in Staffordshire Moorlands has led to high prices and rents. It is now extremely difficult for local people on low incomes and increasingly those on middle incomes to afford a home of their own. This is particularly so in the rural areas. Unless more affordable housing is provided, there is a danger that those on lower and middle incomes, particularly the young, will be forced to leave the district in increasing numbers. As a result, our communities will be damaged and the district's age and social structure will become even more biased towards the elderly and the wealthy.</p> <p data-bbox="696 1361 1729 1390">8.56 The Strategic Housing Market Assessment (SHMA) demonstrates a</p>  |              |  |  |    |  |    |                            |  |

|              |      |                    | <p>significant need for affordable housing in the District which exceeds the District's average annual development rate requirements. This policy therefore seeks to support the provision of affordable housing across the District through a range of measures. The SHMA findings would suggest a 100% affordable housing target, however this is considered unrealistic as it would not allow a sustainable housing market to be maintained. The NPPF requires that the sites and scale of development should not be subject to such a scale of obligations and policy burdens, including affordable housing, that their ability to be developed is threatened. <u>The Local Plan and Site Allocations Viability Study tested different levels of on-site affordable housing provision at 10%, 20% and the target 33% to provide an indication of the likely viability of affordable housing provision in differing value areas across the District. The lowest value areas are located in Zone 1 and the highest value areas located in Zone 4 as identified below. However, the actual level of provision may vary due to individual site circumstances such as ground conditions and other required developer contributions.</u></p> <p><u>Zone 1 - Blythe Bridge and Forsbrook;</u><br/> <u>Zone 2 - Biddulph, Biddulph Moor, Brown Edge and Upper Tean;</u><br/> <u>Zone 3 - Cheadle, Leek, Cheddleton, Werrington and Cellarhead, Ipstones and Kingsley; and</u><br/> <u>Zone 4 - Endon, Alton, Waterhouses and Wetley Rocks.</u></p> <p>8.57 The threshold and minimum target for affordable housing provision are intended to ensure that adequate provision is made both in urban and smaller rural settlements to help address this need and ensure that a sustainable and deliverable housing market is maintained which will deliver the range of housing needed to help meet market demand as well affordable housing needs. All development involving the provision of housing which meet the thresholds will be</p> |

Exceptionally this may be provided through a commuted sum payment in lieu. The actual level of provision will be determined through negotiation taking into account development viability and other contributions.</del></p> <p>2) Unless circumstances dictate otherwise and in agreement with the Council, 60% of all affordable dwellings provided on each site will be social / affordable rented housing with the remaining 40% being intermediate. <del>/starter homes.</del></p> <p><u>3) a) In or on the edge of villages, residential schemes that are of an appropriate scale for the spatial strategy small schemes for 100% affordable housing will be permitted on suitable rural exceptions sites which are well related to services and facilities and where a demonstrable need exists within the local area which cannot otherwise be met by means of provision in the plan. Small numbers of market homes may be allowed at the Council's discretion where it would facilitate the provision of significant additional affordable housing to meet the needs of the local community.</u></p> <p><u>4) Affordable housing should be designed as an integral part of developments and be 'tenure blind' in relation to other properties within the site.</u></p> <p><u>5) b) In areas of low demand or where the stock does not meet and is not capable of meeting local housing market needs consideration will be given, in consultation with local communities, to options for renovation/improvement or redevelopment schemes to create more sustainable and balanced housing.</u></p> |
| MM2<br>3     |      | Policy H4 and supporting text | 8.63 The need for sites for gypsies and travellers within Staffordshire Moorlands  |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )   |
|--------------|------|--------------------|--|
|              | 115  |                    | <p>has been identified through a recent 2015 joint-Authority Gypsy and Traveller Accommodation Needs Assessment (GTAA). This Assessment identifies a requirement for 6x residential and zero transit pitches for the District over the period 2014 – 2019 (with an additional 2x residential pitches up to 2034, taking account of household formation). This Assessment also covers the separate provision for travelling showpeople (although this GTAA did not identify any additional plot requirements for travelling showpeople across the Staffordshire Moorlands). <u>In February 2018 the Council granted full permission for the stationing of three caravans off Uttoxeter Road, Checkley, leaving a residual requirement of 3x permanent pitches to 2019. The Council has sought to address this residual requirement in a number of ways. This has included ‘call for sites’ exercises with the public; and investigating whether public sector bodies (including SMDC and Staffordshire County Council) held suitable and available sites either within or adjacent to the District. As part of its Duty to Cooperate under the Localism Act the Council has investigated with neighbouring authorities (party to the Joint Gypsy and Traveller Needs Assessment) the scope for provision of some/all of SMDC’s residual requirement within neighbouring authorities. None of these actions elicited any suitable, available sites.</u></p> <p><u>New para 8.64:</u></p> <p>Proposals for the development of sites required to meet this need will be assessed against the parameters in this policy, taking into account other relevant criteria set out in the Local Plan. The Council will monitor the availability of gypsy and traveller and travelling showperson's accommodation and manage the provision of additional pitches/plots within Staffordshire Moorlands against the need identified for the District and, as set out in the guidance in paragraphs 24 and 27 of the ‘Planning Policy for Traveller Sites’, will take into account the existing level of local provision and need for sites when considering planning</p> |

|--------------|------|--------------------------------|--|
| 5            |      |                                | <p><b>Policy TCR 3</b></p> <p><b>Retailing and other Town Centre uses outside Town Centres</b></p> <p>In determining proposals for retail and other town centre uses of 200m<sup>2</sup> or more (net sales for A1) on sites <u>outside town centres and not in accordance with an up-to-date Local Plan</u> <del>not allocated in the Local Plan</del> a Sequential Assessment will be required. Preference will be given to town centre and then edge of centre sites. Where there are no sequentially preferable sites available, sites outside Leek, Biddulph and Cheadle in highly accessible locations that are well connected to the town centre will be considered.</p> <p>An Impact Assessment will be required on proposals for town centre uses of 200m<sup>2</sup> or more (net sales for A1) located outside of the town centres and not in accordance with the Local Plan. Developer contributions may be sought to mitigate identified impacts on defined centres where appropriate. Proposals with a significant adverse impact will be refused.</p> |
| MM2<br>6     | 124  | Policy DC1 and supporting text | <p>8.74 Good design is a key element of sustainable development, so the Council will promote a high standard of design which is locally distinctive and reinforces the unique character of its individual settlements. A high quality, well designed, development can enhance the sense of place and identity of an area and can bring significant benefits to the local environment and economy. In this way, new development can have a positive impact on the lives of local people and visitors to the District. To this end, the Council operates a 'Design Review Panel' where larger planning applications and other development proposals are considered by a design team and recommendations made to inform the decision on the application or masterplan etc. The 'Building for Life' toolkit is also a useful resource.</p>   |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )   |
|--------------|------|--------------------|--|
|              |      |                    | <p>8.75 All developers and applicants will be required to provide a Design and Access Statement to accompany suitable planning applications (<u>refer to <a href="http://www.legislation.gov.uk/ukxi/2015/595/article/9/made">http://www.legislation.gov.uk/ukxi/2015/595/article/9/made</a></u>) which addresses, as appropriate, the issues set out in Policy DC1 and the Design Guide SPD.</p> <p>8.76 Assessment of potential impacts from new developments at the earliest possible stage of the design process will assist in identifying problems to be overcome. Detailed guidance on issues of security and public safety in the public realm can be found in 'Secured by Design' (<a href="http://www.securedbydesign.com">www.securedbydesign.com</a>) produced by the police. A further useful reference point is the 'Streets for All Manual: West Midlands' produced by the Department of Transport and Historic England. This contains guidance on the retention and conservation of historic street furniture, rationalisation of existing signage, minimisation of street markings, use of appropriate surfacing and associated highway improvements. The principles of active design set out by Sport England promote opportunities for sport and physical activity in the design and layout of development.</p> <p>8.77 Sport England have produced new 'Active Design' (2015) guidelines to promote the role of sport and physical activity in creating healthy and sustainable communities. This document sets out the ten principles of active design and how these can be incorporated into new development.</p> <p>8.78 New developments which are located adjacent to existing sports facilities or playing fields should consider the location of housing and gardens within the scheme and/or the erection of ball netting/fencing. For example, new housing developments located next to sports pitches can raise the issue of ball strike including damage to property and vehicles and potential danger to residents. New housing built close to artificial turf pitches can cause issues about the use of floodlights and noise generated. If mitigation is required it should be the duty of</p> |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )  |
|--------------|------|--------------------|---|
|              |      |                    | <p>the developer to provide and fund measures to ensure there is no indirect negative impact.</p> <p>8.79 In line with the Council's Sustainability Appraisal, the policy includes a requirement for developments to be well integrated for car, pedestrian and cycle use as well as other sustainable transport links. It also includes a requirement for the creation of healthy environments (to address potential impacts of air pollution).</p> <p>8.80 The 'green infrastructure' can be defined as a network of multi-functional open spaces, including formal parks, gardens, woodlands, green corridors, waterways, street trees and open countryside. It performs a valuable role in the District's towns and villages. <u>The Council has produced</u> a A Green Infrastructure Strategy <del>is currently being produced</del> to consider how the green spaces relate to one another in the District and where there may be opportunities to extend them. Where possible, opportunities will be sought to undertake river restoration and enhance natural river corridors as part of a new development in line with the Water Framework Directive.</p> <p>8.81 Residents of new housing sites and occupiers of new business premises generally expect to be able to access high speed broadband. The Broadband Delivery UK programme does not cover new development sites. New sites should be planned so that these vital services are designed into the development from the outset, and should not require a public subsidy to make them commercially viable. Access to high speed broadband should enhance the saleability of both residential units and businesses premises alike. The failure to supply such access to high speed broadband services could prove to be a real barrier to selling or letting the completed premises. If the developers engage with the network operators at the start of the planning process, they will generally be</p> |

|--------------|------|--------------------|--|
|              |      |                    | <p>requirements apply to all types of development.</p> <p>8.83 The NPPF uses the term 'heritage asset' which can be designated or non-designated. Examples of these are Scheduled Monuments, Listed Buildings, Historic Farmsteads, Conservation Areas, Registered Parks and Gardens, Registered Battlefields, <u>and</u> archaeological remains. There are just under 1,000 Listed Buildings and structures, 16 Conservation Areas (as at September 2017) and a number of Scheduled Monuments within the District outside the Peak District National Park. Conservation Areas and Listed Buildings are protected by national legislation and guidance. Additionally the Council has adopted an SPD 'Staffordshire Moorlands Local Heritage Register' which outlines procedures for identifying local buildings not statutorily protected but considered worthy of recognition (local listing). In addition, Government Guidance (NPPF) requires the Council to consider any impacts arising from a development proposal on non-designated heritage assets.</p> <p>8.84 Ten of the designated Conservation Areas have adopted character appraisals <del>and one is underway</del>. These can be found on the District Council's website at <a href="https://www.staffsmoorlands.gov.uk/article/1358/Character-appraisals">https://www.staffsmoorlands.gov.uk/article/1358/Character-appraisals</a>. The appraisals assess the particular qualities and needs of each Conservation Area and will act as tools in defining the character of the areas and as an aid in considering development proposals. The character appraisals produced include recommendations for enhancing the Conservation Area, for example, introduction of Article 4 Directions.</p> <p>8.85 The built heritage of the plan area is rich and varied - containing a valuable resource of surviving high quality vernacular and industrial architecture. Whilst this resource has escaped the alterations and interventions typically found elsewhere, they often, today, suffer from under-use and dereliction. The plan</p> |

|--------------|------|--------------------|--|
|              |      |                    | <p>place and all options for continued use as a community facility (such as a multiuse scheme) must be thoroughly explored.</p> <p>8.99 An important part of creating sustainable communities is the provision of the necessary infrastructure to serve new development (such as roads, accessibility by public transport, schools and public open space), where this is lacking. Otherwise, new development can put a strain on existing facilities and disadvantage both existing and new residents in an area. This is recognised by the Government as a development cost to be met by the landowner or developer. Full details of the Council's requirements will be produced in an SPD. The Council will also consider the use of Community Infrastructure Levy to fund investment in vital infrastructure either across the District or in specific areas.</p> <p>8.100 In accordance with sustainability principles, major new development must be accessible by a choice of means of transport so that all members of the community are able to access it.</p> <p><b>Policy C1 - Creating Sustainable Communities</b></p> <p>In order to create sustainable communities at a local level the Council will:</p> <ol style="list-style-type: none"> <li>1. Support proposals which protect, retain or enhance existing community facilities (including multiuse and shared schemes) or provide new facilities. New facilities should preferably be located within defined built up areas where they are most accessible. In exceptional cases facilities may be located adjacent to these areas where it can be demonstrated that this is the only practical option and where a site is well related to the existing settlement.</li> <li>2. Safeguard land required for the provision of facilities to meet existing and future community needs, as identified by service providers.</li> </ol> |

|              |      |                    | <p>be set out in the <u>Developer Contributions</u> <del>Open Space, Sport and Recreation SPD.</del></p> <p><i>8.103</i> New sport, recreation and open space facilities should be in an accessible and sustainable location and carefully assessed so that they do not have a detrimental impact on the local area, especially if they are proposed on the edge of a settlement in the open countryside. Opportunities to promote access to facilities by public transport and by alternatives to the car such as recreational routes, cycleways and bridleways etc should be maximised. The Council also supports the improvement and extension of existing facilities in order to increase their use and availability such as new playing spaces, changing facilities, car parking, floodlighting, social facilities such as kitchens and improvements to the quality of playing surfaces. Again these need to be carefully assessed so that the scale is directly related to the needs of the facility, they do not have a detrimental impact on the residential amenity of the area and do not impact on the 'openness' of the Green Belt.</p> <p><i>8.104</i> The protection and enhancement of existing areas of open space and recreational facilities is also considered necessary to ensure that there is no net loss of open space, sport and recreation in terms of quantity and quality. However, the policy recognises that there may be instances where alternative provision elsewhere or improvements to neighbouring facilities may be a more appropriate option. Areas of open space and outdoor sports facilities <u>identified in the updated studies (2017) are</u> <del>will be</del> identified on the Policies Maps. <u>It should be noted that there may be changes to these areas over time as a result of new planning permissions.</u></p> <p><i>8.105</i> It is acknowledged that due to housing growth and increasing population, some schools may be required to expand, potentially onto playing pitch land. Where this is the case, it is imperative that the schools in question are left with</p> |

| MM3<br>6     | 153  | Policy DSL2 and supporting text<br><br>Paragraph 9.11 | <p>Staffordshire Council Highways advise that development in this area should contribute to the improvement of Mount Road including provision of footways and pedestrian links. Also Kniveden Lane should be brought up to adoptable standard with the implementation of footways. Further junction improvements at Mount Road/ Ashbourne Road may also be appropriate. Given the interconnection of these sites it may be considered appropriate to consider highway improvement works holistically; the Council will encourage applicants to work with the Council and other landowners on joint funding arrangements to coordinate contributions. <u>Proposals should recognise the informal recreational value of the Mount by pedestrians, cyclists etc and consider scope for measures</u></p>   |

| MM3<br>9     | 158  | Policy DSB1 and supporting text | <p>9.31 This is a key mixed use development site in the Local Plan. It is in a sustainable location close to the town centre and <del>most of the land (with the exception of that to the west of the Biddulph Valley Way)</del> lies outside the Green Belt. It presents an opportunity to comprehensively plan for a range of uses to make a significant contribution to Biddulph's development needs over the plan period. There are opportunities to provide improved pedestrian and cycle linkages with the town centre and with the adjacent Biddulph Valley Way for access to the wider countryside.</p> <p>9.32 The 2017 update concluded that <del>13 to 27ha</del> <u>14 to 32ha</u> of additional employment land was required for Staffordshire Moorlands for the period <del>2016</del> <u>2014 to 2033</u> <del>2034</del>. An employment land requirement of <del>27ha</del> <u>32ha</u> is recommended being at the top end of this range, to dovetail with a housing requirement of 320 homes per year (relating to the level required to support projected increase in jobs). The <u>majority of the</u> residual requirement in Biddulph (over and above the land still available at Victoria Business Park) has been split</p> |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )   |
|--------------|------|--------------------|--|
|              |      |                    | <p>over 2 sites - Wharf Road and Tunstall Road (opposite Victoria Business Park) <u>in conjunction with a small number of windfalls across the town</u>. The Council considers this approach appropriate to cater for businesses who need a location close to the town centre as well as businesses who wish to locate on a larger business park. The type of employment use to be located at Wharf Road is dependent upon how this integrates with other land uses and will be determined as part of the masterplan.</p> <p>9.33 The Council's Retail Study (2013) recommends the allocation of a site to accommodate a discount foodstore (a standard sized store of around 1,000m<sup>2</sup> (net sales) is recommended) to claw back some of the 45% of residents who still shop out of town for their main food shopping. Note that this is a qualitative rather than quantitative need. The study identifies outflow to mainstream and discount foodstores and explains that a discount store would provide the local population with more choice as there is a lack of such a facility in the town at present. The study advises that any new store would have to be sustainably located so that linked trips to the town centre can still be achieved.</p> <p>9.34 The school playing field included in the allocation is in use and is proposed for retention in situ.</p> <p><del>9.35 Housing density calculations are set out as gross figures and vary across the site with 40 dwellings per hectare assumed for the area between the bypass and Tunstall Road to reflect adjacent development and its position close to the town centre, 35 dwellings per hectare assumed for land west of the Biddulph Valley Way and a lower density of less than 30 dwellings per hectare assumed for the central part of the site to reflect known constraints including mine shafts, land levels and the watercourse. Actual density levels will be determined through</del></p> |

|--------------|------|--------------------|--|
|              |      |                    | <p><del>the masterplan process once all the constraints can be assessed in full detail. <u>Housing density calculations reflect the results of the Wharf Road Strategic Development Area Concept Masterplan. Market demand was tested, including suitable densities which could be accommodated on the site. Consequently, it was found that more housing (+109 dwellings) could be accommodated on the site than originally anticipated. This is reflected in the policy.</u></del></p> <p>9.36 The Council's Landscape, Local Green Space &amp; Heritage Impact Study (2016) makes recommendations to mitigate landscape and heritage impact which the developer should adhere to. This study covers the land between the bypass and Biddulph Valley Way as well as land at Beehive Farm. Assessment of the land <del>to the west of the Biddulph Valley Way and land</del> between Beehive Farm and the roundabout can be found in a later document dated October 2017. Landscape sensitivity across the site area varies with low impact to the east of the bypass, in and around the former Meadows School and on land around the telephone exchange. Most of the site has medium landscape sensitivity including the area immediately to the east of the Biddulph Valley Way (BVW). The landscaping plan should reflect the study by including additional advanced planting on the ridge and along the boundary with the BVW and screening in the south-eastern part of the site. The large mature tree adjacent to the telephone exchange access point needs to be retained. Landscaping should be used as a buffer between the residential and employment / retail development. Development of land between Tunstall Road and the bypass provides an opportunity for urban greening along the Tunstall Road frontage and buffer planting for visual and noise purposes along the bypass boundary. <del>All of the land on the west side of the Biddulph Valley Way has high landscape sensitivity so particular attention to landscaping in this location will be required. The Green Belt</del></p> |

|--------------|------|--------------------|--|
|              |      |                    | <p><del>Review recommends creation of a new settlement edge along the south-western boundary of the part of the site located to the west of the BVW. This should be included in any landscaping scheme.</del> Submission of landscape and visual impact assessments alongside any planning application will be necessary.</p> <p>9.37 There is a cluster of heritage assets within and immediately adjacent to the south eastern boundary. Most of these are listed buildings associated with the property known as 'Fairhaven' which is currently occupied by the Roaches School. There are two Grade II Listed Buildings in the site and five additional Grade II Listed Buildings within the 400m buffer used in the study. As a consequence, mitigation must take place to include setting development back from the assets coupled with landscape masterplanning to provide screening. Historic England requires an assessment of how the setting of the Listed Buildings contributes to their significance and this must be undertaken to inform any development.</p> <p>9.38 The Council's <del>contamination</del> <u>Environmental Health</u> department has advised that air quality issues of future occupants of the housing can be avoided by careful site design to avoid placing housing too close to the bypass.</p> <p>9.39 This area, along with many others around Biddulph, has a mining legacy. The Coal Authority has advised that new development should recognise the problems and how they can be positively addressed. They consider that mining legacy is not always a complete constraint and new development can address issues making it safe, sustainable and stable. The mining legacy of this site will not prevent development but detailed site investigation work must take place to inform site design. A developer will therefore need to undertake intrusive site investigations to locate these mine entries and determine their current condition</p> |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )   |
|--------------|------|--------------------|--|
|              |      |                    | <p>followed by undertaking consequential treatment. Any layout would then need to try and locate the mine entries within landscaping belts, open space, roads etc. The developer must ensure that no development takes place over mine entries even when treated. Mine entries are positioned parallel to the BVW so this land could potentially be integrated into open space providing a buffer between the BVW and new development. <u>As the site is likely to be developed in phases, any parts of the site not affected by mining legacy could be commenced earlier than those which require detailed investigations (subject to policy objectives being met and delivery of the wider development area not being undermined).</u></p> <p>9.40 A watercourse runs through the middle of the site, which the Lead Local Flood Authority would like to see preserved to contribute towards Water Framework Directive objectives. This may take up space within the site, however it may be possible to divert the channel round the edge to create more developable space. The Environment Agency should be contacted by the developer at an early stage to discuss this issue. The Environment Agency also requires a Preliminary Risk Assessment of controlled waters to identify any contamination issues and advises that the developer has regard to the relevant River Basin Management Plan. The Lead Local Flood Authority would like to see a Flood Risk Assessment of the whole site undertaken by the developer prior to any development taking place. Any application submission will also be required to include a holistic site-wide drainage strategy for foul and surface water which considers how the site will be developed in various phases and most likely by various developers over a number of years. The drainage strategy should clearly demonstrate how the drainage in earlier phases of development interact with the wider phases of development and how the approach to foul and surface water drainage takes account of the flows from later phases of development. Given the</p> |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )  |
|--------------|------|--------------------|---|
|              |      |                    | <p>availability of an on-site watercourse, only foul flows should be connected to the public sewerage system. Surface water should also be managed by sustainable drainage features. Applicants should note that the site includes large public sewers which cannot be built over. Applicants should engage in early pre-application dialogue with the respective water and wastewater undertakers. The current wastewater undertaker for the area is United Utilities. Options for incorporating the undevelopable land into the Green Infrastructure for the site should be investigated.</p> <p>9.41 County Highways has stated that development of this site is acceptable in principle subject to suitable access design and a Transport Assessment. They require site access to the sites on the east side of the bypass to be gained from Tunstall Road and not the bypass.</p> <p>9.42 The Council's <del>contamination</del> <u>Environmental Health</u> department has advised that there is possible landfill in the North West of the site which the developer would need to investigate. Also investigation will be required to determine whether any minor contamination from previous uses has occurred on the brownfield parts of the site e.g. the possibility of minor contamination on the land which was formerly Jacksons Nursery due to possible pesticide use.</p> <p>9.43 There is ecological interest on the site and comprehensive survey work will need to be carried out at an early stage. Recommendations for survey work are set out in the Council's 2015 Phase 1 Habitat Survey and its 2016 Local Wildlife Assessment work (for land between the bypass and the Biddulph Valley Way as well as land at Beehive Farm). <del>Recommendations for land to the west of the Biddulph Valley Way can be found in</del> <u>The Extended Phase 1 Habitat Survey (September 2017) along with</u> <u>covers</u> land between Beehive Farm and the</p> |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )  |
|--------------|------|--------------------|---|
|              |      |                    | <p>roundabout. All of this survey work must be undertaken. This includes a bat survey for all buildings and trees with potential to support roosting bats, a reptile survey, a hedgerow survey following modified HEGS (<u>Hedgerow Evaluation and Grading System</u>) methodology, vegetation removal at the appropriate time of the year, assessment of the trees for location, quantity, age and size and a detailed vegetation survey to determine the status of the habitat mosaic, particularly in the central part of the site, sensitive mowing regime of grassland and leaving rough margins, hedgerow planting of native woody species and management during winter, PSYM pond survey, presence / absence survey for great crested newts and removal of Himalayan balsam. All the surveys listed are not required on every part of the site. The developer should refer to the Ecology Studies to identify which parts of the site require which type of survey. This work will also establish the SBI / BAS status of parts of the site.</p> <p>9.44 The County ecologists point out that the north of the site is adjacent to, or overlaps with a Biodiversity Alert Site. With this in mind they state that design and layout should avoid impacts on this site, it should be enhanced where possible and linear habitat connectivity should be maintained.</p> <p>9.45 Natural England have pointed out that a number of sites are located close to and/or adjoining existing areas of open space and green infrastructure and will need to include suitable multi-functional green infrastructure. The Council has prepared a <del>Draft Green Infrastructure Strategy (GIS) for consultation</del>. This site borders the Biddulph Strategic Corridor, comprising the Biddulph Valley Way. The GIS aims to protect and improve the Biddulph Valley Way as an established greenway through the settlement, to increase its use and enjoyment by people for health and recreation and to enhance its function as a wildlife corridor. Development of this area should positively contribute to this aim including the provision of pedestrian and cycling linkages from the site to the BVW and</p> |

|              |      |                                 | <p><u>removal at the appropriate time of year; and</u></p> <ul style="list-style-type: none"> <li>• <del>Provision of adequate parking and a Transport Assessment in line with requirements of the Highway Authority;</del></li> <li>• Contributions towards infrastructure, public open space, education, services, improved pedestrian and cycle linkages with the Biddulph Valley Way and other community needs including sports facilities as required;</li> <li>• <del>Affordable housing in accordance with Policy H3.</del></li> </ul>   |
| MM4<br>1     | 164  | Policy DSB3 and supporting text | <p>9.53 This land is on the edge of Biddulph and is proposed for removal from the Green Belt in line with the conclusion of the Council's District wide Green Belt Review and subject to demonstration of <del>very special</del> <u>exceptional</u> circumstances. <u>The Green Belt Review has assessed the site as having a limited overall contribution to Green Belt purposes. In particular, this land is considered to make a limited contribution to the purposes of checking sprawl and preventing encroachment. The Council's Core Strategy acknowledges that some Green Belt release is necessary to enable sufficient growth in Biddulph. The Submission Version Local Plan seeks to deliver Biddulph's housing and employment requirement whilst ensuring that Green Belt release is kept to a minimum. Land at Tunstall Road is proposed to be developed as part of a mixed use employment / residential scheme in order to address demand for employment and housing in Biddulph. It is considered that this site is ideally located with good road links opposite Victoria Business Park and bringing it forward will have a positive impact on the local economy. Considering these factors collectively, it is considered that there are exceptional circumstances to release land at Tunstall Road from the Green Belt.</u></p> <p><del>These are that in order to address demand for employment and housing in Biddulph, it is considered that this site is ideally located with good road links opposite Victoria Business Park and bringing it forward will have a positive</del></p> |

|--------------|------|--------------------|---|
|              |      |                    | <p><del>impact on the local economy.</del></p> <p>9.54 The Council considers that this site would provide for the bulk of the town's residual employment land requirement (up to <u>2033</u>), catering more for 'general' or heavy industrial uses [pursuant to Local Plan Policy E2], given its position along the A527 that links Stoke with Cheshire, and its proximity to the existing industrial areas at Victoria Business Park, Forge Way etc. However given the site is also allocated for mixed residential use (and its adjacent residential areas) it is important that development of the site achieves sufficient levels of amenity for new and existing dwellings. The Council therefore expects that this will be reflected in the masterplan.</p> <p><del>9.55 The number of houses has been calculated based on a density of 40 dwellings per hectare (gross) to reflect residential development nearby. Actual density levels will be determined through the masterplan process once the constraints can be assessed in full detail. Housing density calculations reflect the results of the Tunstall Road Strategic Development Area Concept Masterplan. Market demand was tested, including suitable densities which could be accommodated on the site. Consequently, it was found that more housing (+20 dwellings) could be accommodated on the site than originally anticipated. This is reflected in the policy.</del></p> <p>9.56 The site has limited ecological value according to the Council's Ecology Studies. However, the following surveys/actions are recommended in order to establish SBI/ BAS status - hedgerow survey following modified HEGS methodology and relevant trees to be identified and further assessed for their potential to support roosting bats. Following this a bat survey may possibly be required.</p> <p>9.57 The Council's Landscape, Local Green Space &amp; Heritage Impact Study (2016) identifies that all but the south-west corner of the site has a high landscape sensitivity and therefore the developer's landscape plan must adhere</p> |

|--------------|------|--------------------|---|
|              |      |                    | <p>how they can be positively addressed. There are former mineral workings on the site (two mine shafts present). The Coal Authority have confirmed that this would not prevent development taking place, however no development should take place directly over the mine shafts. Investigative work will take place in these areas prior to the commencement of any development.</p> <p>9.69 The Council's Landscape, Local Green Space and Heritage Impact Study has recommended site-specific landscape mitigation measures which include limiting building heights in certain areas, advanced planting on some boundaries and setting development back in some other areas. There is one Grade II Listed Building within 400m. As a farm, the wider agricultural setting is considered to contribute to the overall significance of the asset. The site is not within the immediate setting of the asset and development would likely be viewed as part of the existing residential development to the west. However, development may cause adverse effects to its wider setting which could be reduced through mitigation including screening of the north-eastern boundary.</p> <p>9.70 Cecilly Brook Local Nature Reserve (LNR) holds a strong isolated population of water voles. As a protected species their habitat must be maintained with no development creating direct or indirect impacts to impinge movement and expansion of the population along the riparian corridor.</p> <p>9.71 The Council's Green Infrastructure <del>Plan</del> <u>Strategy</u> also recognises the importance of the natural environment of Cecilly Brook for sense of place, nature experience, health and recreation, biodiversity and flood risk management and its key role to strengthen the population of water voles in this location. It sets out priorities and actions for the strategic corridor.</p> <p>9.72 The Extended Phase 1 Habitat Survey and Local Wildlife Assessment recommend that a bat survey and a tree and hedgerow survey are undertaken and that any vegetation is removed at the appropriate time of year.</p> |

| MM4 4        | 171  | Policy DSC 3 and supporting text | <p>9.81 This is a key strategic housing site in the Local Plan. It presents an opportunity to provide new housing and associated public open space in the south west of Cheadle. The majority of the land lies within the town development boundary and a small proportion of the area to the south lies within the Green Belt.</p> <p>9.82 The Green Belt Review (2015) recommends that the area <u>to the south</u> could be considered for release <u>from the Green Belt</u> if there are <u>under</u> exceptional circumstances. <u>The Green Belt Review has assessed the site as having a limited overall contribution to Green Belt purposes. In particular, this land is considered to make a limited contribution to the purposes of checking sprawl, maintaining separation and preventing encroachment. The main part of the allocation is well related to the settlement and lies within the town development boundary however, currently there is no direct access point to enable the delivery of the undeveloped whole area within the town development boundary via the existing road network. Access to the area can only be achieved via land to the south (north of the veterinary practice) which is currently in the Green Belt. The proposed section of Green Belt to be released has been limited to that which is required to provide an access to the wider site only and minimise the impact on the Green Belt. There are therefore considered to be exceptional circumstances</u></p> |

| Main Mod No. | Page | Para/Policy Number | Proposed Modification (deleted text has <del>strikethrough</del> , new text is <u>underlined</u> )  |
|--------------|------|--------------------|---|
|              |      |                    | <p>to release this small section of Green Belt to be able to gain access to this area.</p> <p>9.83 The Cheadle Town Centre Phase 2 Study (2017) considered the provision of a link road between the A522 Tean Road and Brookhouse Way / A521 as part of this residential scheme. The route is severed by a disused railway line which is in third party ownership and a bridge would be required to connect a link road through. The Council will safeguard the route within the site for a potential future link road and will require that access roads to serve the new development will follow the indicative route and be of a sufficient design to facilitate a link road. Developers should liaise with the District Council and the Highways Authority regarding the specification and route of the link road.</p> <p>9.84 The site is located in Flood Zone 1 - low probability and therefore the sequential test required by national policy has been met. There is a main river floodplain located to the west of the site and evidence of some surface water flooding on the southern part of the site. The developer will need to consult with the Environment Agency and the Lead Local Flood Authority as early as possible to discuss SuDS. The masterplan should include opportunities to make space for water through the design and layout of the proposed developments to help management surface water and accommodate climate change. Land lying outside the sites in Flood Zones 2 and 3 could be used as <u>additional</u> open space <u>to that provided within the allocated site</u> / <del>surface water mitigation</del>. There will be a need to ensure that <del>the link road does not</del> <u>roads within the site do not</u> impact on the River Tean and its floodplain to increase flood risk elsewhere. A flood risk assessment will be required to support this.</p> <p>9.85 The Council's Landscape, Local Green Space and Heritage Impact Study has recommended site-specific landscape mitigation measures which include limiting building heights in certain areas, and planting along the western edge of the site. There are two Grade II Listed Buildings within 400m of the southern section of the site, as a farm the agricultural setting is considered to contribute to the overall significance of the asset. It is considered that mitigation through</p> |

| MM4<br>8     | 181  | Policy DSR3<br><br>Land west of Basford Lane, Leekbrook<br><br>and supporting text | <p><b><u>Land west of Basford Lane, Leekbrook</u></b></p> <p><del>9.113 It is considered that a further site in Leekbrook could contribute to Leek's remaining employment land requirement up to 2031. Land is available for employment purposes rear of the Docksey haulage company, west of Basford Lane, Leekbrook. Whilst the gross area extends to around 1.67ha, approximately 0.8ha of this is considered deliverable given topography issues. Given access difficulties from this lane, It is anticipated that access must be served through this business via the A520 main road, however. Staffordshire Council Highways have indicated they are satisfied with this arrangement.</del></p> <p><del>9.114 The Council's Landscape, Local Green Space and Heritage Impact Study indicates as the site slopes up to the south it becomes increasingly visually prominent to the west despite existing woodland screening. Overall the evidence concludes that the site is of medium landscape sensitivity therefore recommends that future development be limited to the lower ground only and building heights limited in the west.</del></p> <p><del>9.115 Areas of wooded and open land to the immediate west and south are designated as both a County-level Site of Biological Importance (SBI) and a woodland TPO. The Council commissioned a Phase I Study of the site</del></p> |

|              |      |                    |  <p>The map shows a residential area in Cheddleton with various streets including Church Road, St Anne's Vale, Fiddlers Bank, Alders Farm, Job's Pool, Sytch Road, Brownhill Road, The Green, Back Lane, and Bank End. A callout box points to a specific area labeled 'Local Green Space deleted'. A key in the bottom left corner identifies 'Local Green Space' with a light green hatched pattern and 'Green Belt' with a darker green hatched pattern. A north arrow and a 4m scale bar are also present.</p> |

| 1            |      | Map A4.5           | <p>31 (Land south of Caldon Canal).</p>  <p>The map shows the Cheddleton area with a green highlighted path running north-south. Key features include Sunny View, a Weir, a Lock, a PO, a Museum, and a Recreation Ground. A green line is drawn through the center of the map, passing through the path. A yellow box labeled 'Local Green Space deleted' is placed over a green area near the Museum. Another yellow box labeled 'Local Green Space deleted' is placed over a green area near St Edward's School. A key in the bottom right corner identifies 'Local Green Space' as a light green area and 'Open Space' as a darker green area. A north arrow is also present.</p> |

| MM7<br>4     | 297  | Appendix 12<br><br>Glossary | <p><b>Housing Trajectory</b> – a projection of future housing provision and requirements. The Housing Trajectory tracks the provision of housing supply over the lifespan of the Local Plan (2014- <del>2016-2033</del> <u>2034</u>). The purpose of the Housing Trajectory is to highlight the robustness and soundness of the overall housing strategy in the Local Plan and how it is likely to perform in relation to the housing requirements.</p> |
