Chief Finance Officer's Narrative Report

The Council's Draft Statement of Accounts for the year ended 31 March 2023, together with the accompanying notes, explains how the Council spent your Council Tax, Business Rates and other sources of funding on the provision of services during the year. The narrative report provides a financial summary focusing on the current financial challenges and opportunities as identified within the Council's Medium-Term Financial Plan (MTFP); details of the financial performance for 2022/23; a focus on the Council's Corporate Plan; risk and performance framework; identification of the Council's key strategic partnerships; and an explanation of the key financial statements. These Draft Statements have yet to be audited and so may be subject to change.

Staffordshire Moorlands District

The District of Staffordshire Moorlands covers an area of 57,600 hectares, of which 32% is classed as rural, and serves a resident population of 95,800¹. There are 44,776 domestic households on the Council Tax valuation list and 3,199 non-domestic properties on the Business Rates list as at 31st March 2023.

Local Authorities have continued to face significant financial challenges over recent years managing cost pressures within services and greater volatility in financing streams where there has been a shift in focus towards locally generated income streams, such as Council Tax, Business Rates, and other income, with core Central Government funding reduced substantially. This increases the control and influence the Council has over locally generated income but makes it more vulnerable to fluctuations within the local economy, increasing financial risk. This is exacerbated in the context of the current national and world economic and geo-political events. Significant volatility in inflation and interest rate rises has a tangible effect on the Council's finances, including significant cost increases, price rises and supply chain issues.

Future Challenges and Opportunities

The narrative below sets out some of the more significant recent developments that have or may have an impact on the financial position of the Council.

Changes to Local Government Finance

Business Rates: As part of the current Business Rates Retention system, local authorities (the billing Authority, County Council and fire Authority) retain a proportion of 50% of any growth in Business Rates over and above a centrally established baseline after a system of tariffs and levies. The Retention system continues to be reviewed by

¹<https://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationestimates/datasets/populationandhouseholdestimatesenglandandwalescensus2021>

Government subject to various delays. Therefore, no financial assumptions of a new system have been included with the Council's financial plans thus far.

Council Tax: The Council has the capacity to vary Council Tax levels, but any increase above a threshold set by Government is subject to a local referendum. For both 2022/23 and 2023/24, the threshold was 3%; the Council set a 2.99% Band D increase in 2022/23 and no increase (0%) in 2023/24.

New Homes Bonus: This is a financial reward scheme awarded to Authorities who demonstrate an increase in housing provision on an annual basis. The Council received £255,005 in 2022/23. The provisional Local Government finance settlement in December 2022 reduced the funding to £59,450 for 2023/24. The Medium Term Financial Plan (MTFP) assumes that the Council will receive funding at a level of £80,000 in the following years pending the outcome of the Government's current consultation.

Other Government Funding: The provisional Local Government finance settlement in December 2022 confirmed the following Government support to the Council in 2023/24: a Funding Guarantee Grant of £354,960; a Services Grant of £101,780; a Rural Services Delivery Grant of £63,440; and a Revenue Support Grant of £98,160. It is assumed that the Funding Guarantee Grant is a one year only award whereas the other grants will be on-going throughout the life of the MTFP.

Inflation Pressures

UK interest rates from the Bank Rate to gilt yields have been volatile throughout 2022/23 and are set in the context of significant inflationary pressures, the easing of Covid restrictions, the Russian invasion of Ukraine, and varying Government policies. The potential pressures of this volatility on the Council's finances are being incorporated into the Council's financial planning. Inflationary cost impacts across all services, including partner organisations, will continue to be monitored throughout the coming years.

Levelling Up

Under the UK Government's Levelling Up agenda to support local economic growth and regenerate town centres and high streets, the Council was successful in its bid to round 2 of the Levelling Up Fund (LUF) and was awarded £17.1million to regenerate Leek town centre. The funds will be used over the next 3 years to deliver three projects: the creation of a wellbeing hub at Brough Park Leisure Centre, improvements to the Butter and Trestle markets, and refurbishment works at the Grade II listed Nicholson Institute. The Council has also been allocated an award of £3,428,937 from the UK Shared Prosperity Fund (UKSPF) as part of the Levelling Up agenda in its support for places across the UK to deliver enhanced outcomes. The allocation of funding to the Council is based on

² <https://www.gov.uk/government/publications/uk-shared-prosperity-fund-prospectus/ukspf-allocations>

the three investment priorities of UKSPF: Communities & Place, Supporting Local Business and People & Skills. The funding is to be used by 31 March 2025.

Efficiency & Rationalisation Programme

With the continuing underlying principles of protecting frontline service delivery and moving towards being self-financing (i.e. not as reliant on direct government funding), the development of a new Efficiency and Rationalisation Strategy commenced in conjunction with stakeholders in the Autumn of 2022. The £100,000 remaining balance of the former Efficiency and Rationalisation Strategy approved by Members in February 2017, which was incorporated in to the 2022/23 MTFP approved in February 2022, has been rolled into the new programme. The £690,000 programme has been included in the 2023/24 MTFP approved in February 2023 profiled across 2023/24 £0, 2024/25 £200,000, 2025/26 £240,000, and 2026/27 £250,000. The Council carries the longstanding earmarked reserve of £492,000 established to support with costs of delivering the programme and any reprofiling requirements.

Going Concern

The Statement of Accounts 2022/23 has been prepared on a 'going concern' basis. This means the Council considers that it has sufficient financial resources to be able to continue in operation for the foreseeable future. The Council has a firmly embedded Financial Planning process, which includes a rolling four-year MTFP. This includes the Chief Finance Officer's statement regarding the adequacy of reserves and balances.

All known events that could impinge on the Council's ability to continue as a going concern are mitigated systematically. For example, budget deficits are primarily addressed through a well-developed approach towards the achievement of efficiency savings, which has a proven track record of success. There is an established quarterly reporting process to Cabinet to monitor in year financial performance.

In terms of the Council's cash and liquidity position, the average maturity of investments during the year was relatively short to allow for any uncertainties over cashflow as well as being able to take advantage through a 'ladder approach' to investments where interest rates on investment opportunities are increasing at a significant pace. The Treasury function is scrutinised by the Audit & Accounts Committee.

2022/23 Financial Performance

Revenue Spending

Revenue spending represents the net cost of consuming supplies and providing services delivered by the Council in its day-to-day business during the year. The financial planning process for 2022/23 was driven by the need to provide effective services while satisfying the on-going economic pressure to become ever more efficient in our use of resources, delivering high levels of value for money for our residents and businesses.

Planned Spend

The 2022/23 net general fund budget was set at £10,815,070 with £816,230 to be funded from reserves. However, £906,580 of these reserves were a carry forward of Government grant received in 2021/22. This was compensation for the residual impact on the District's Business Rates income stream because of the extra reliefs given to businesses during the pandemic.

Actual Spend

The Council's actual performance against budget resulted in a £625,365 operating surplus in 2022/23, analysed in the table below:

	Budget £	Actual £	Variance £
Activities	10,815,070	10,791,589	(23,481)
Funding:			
External	(9,998,840)	(10,472,040)	(473,200)
Reserves	(816,230)	(944,914)	(128,684)
Deficit (Surplus) in the year		(625,365)	(625,365)
Adding back the actual net use of reserves in the year gives the decrease in reserves generated in 2022/23			944,914 319,549

Funding levels achieved were £473,200 above expectations. This was primarily due to an increase of funding received through Business Rates Retention, made up of a smaller levy payable to the Business Rates Pool, a surplus levy distribution from central government, a refund from the Pool for previous years, and additional s31 grants to compensate the Council for the cost of additional business rates reliefs awarded.

The actual use of reserves was £128,684 greater than budgeted, as the Council identified a number of in-year activities where it was appropriate to apply previously earmarked funds. This increased the use of reserves to £944,914, which when deducted from the £625,365 surplus, results in an actual net reduction in the Council's reserves of £319,549.

Both the capital and earmarked reserves have been built up over time to provide funding for future projects and specific activities in line with the Council's medium term aims and objectives. A review of the Council's overall reserves identified that it was appropriate to

increase earmarked reserve in a number of areas to support future activities. This included £1million set aside for Capital schemes, £0.308million to top up the IT Strategy reserve and £0.1million to top up the future leisure provision.

The General Revenue Reserve is primarily held as a contingency to provide the Authority with operational funds and as a safeguard against financial risk (such as the Coronavirus pandemic). Current risk-based assessments set the Council's need for a revenue contingency at £1.478million although the current economic climate and volatile financial environment means that this is very much considered to be a minimum and greater headroom than has been typical will be required to mitigate against the impact of future financial shocks. At the end of 2022/23, the reserve stood at £2.908million, which is £1.430million above the minimum contingency level.

The current Medium-Term Financial Plan does not expect to erode general contingency reserves, with a modest increase of £5,340 predicted over the next four years.

How the money was spent

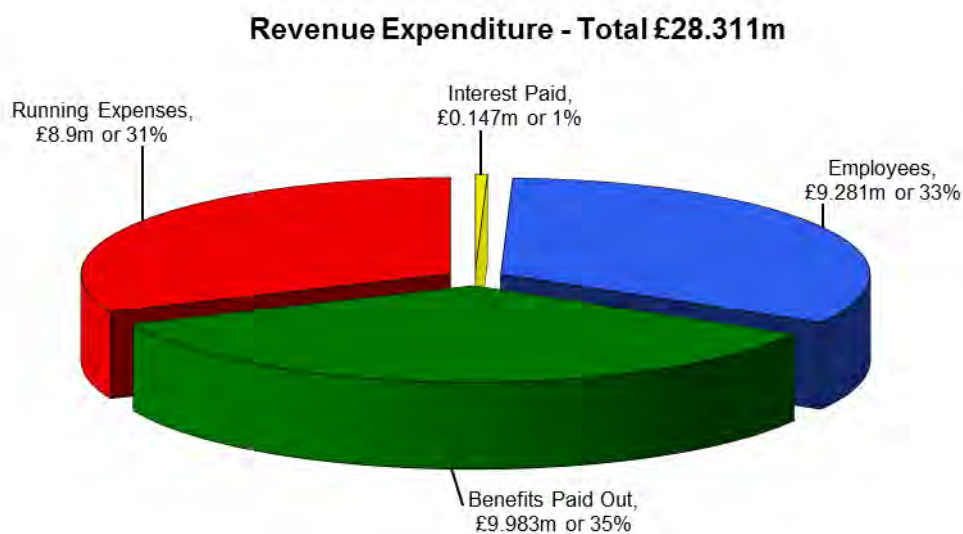

The Comprehensive Income & Expenditure Statement (CIES) (page 23) summarises the resources that have been generated and consumed in providing services and managing the Council this year. It shows Net Expenditure for the year was £12.334million across the service areas around which the Council organises its budget. This figure includes nominal charges made for the use of capital assets and future pension liability. Their inclusion is a requirement to allow comparison between Councils as to the true cost of providing services. However, statutory provisions require that such charges are excluded from the amount charged to Council Taxpayers.

The Expenditure and Funding Analysis (EFA) (page 27) reconciles the service outturn reported in the CIES with the £10.802million spend on activities as measured against the 2022/23 budget. The table below summarises that reconciliation and by adding in external sources of funding and the use of reserves, reveals the actual gross expenditure and income behind the £0.625million surplus generated in the year.

	Gross Expenditure £'000	Gross Income £'000	Net Expenditure £'000
CIES	30,690	(18,357)	12,333
Nominal Adjustments	(2,379)	847	(1,532)
EFA	28,311	(17,510)	10,801
Funding :			
External		(10,481)	(10,481)
Reserves		(945)	(945)
	28,311	(28,936)	(625)

An analysis of the £28.311million Gross Expenditure illustrates how actual revenue resources were applied in 2022/23. At £9.983million the administration and payment of Benefits accounted for 35% of the Council's revenue spend. The chart below profiles the remaining 65% - £18.328million - across the Council's other service areas.

The four main categories of this spend are employee costs, running expenses, interest paid on borrowing and Housing Benefit payments made to residents. Running expenses include maintenance of buildings, vehicle costs and supplies and services. The chart below illustrates the proportions of these categories of expenditure. The largest element, at £9.983million, is the payment of Housing Benefits on behalf of Central Government.

How it was paid for

Excluding the £9.897million Housing Benefits grant from Central Government, the chart below illustrates the continuing shift in Local Government finance to generate income locally and become self-financing. Of the remaining £19.030million in funding (excluding the Benefit grant) 86% - £16.382million – is from the locally generated income streams of Council Tax, Business Rates, interest and fees and charges, while 5% - £0.944million was met from Reserves and the remaining 9% £1.704million of grant funding.

Revenue Funding - Total £28.927m

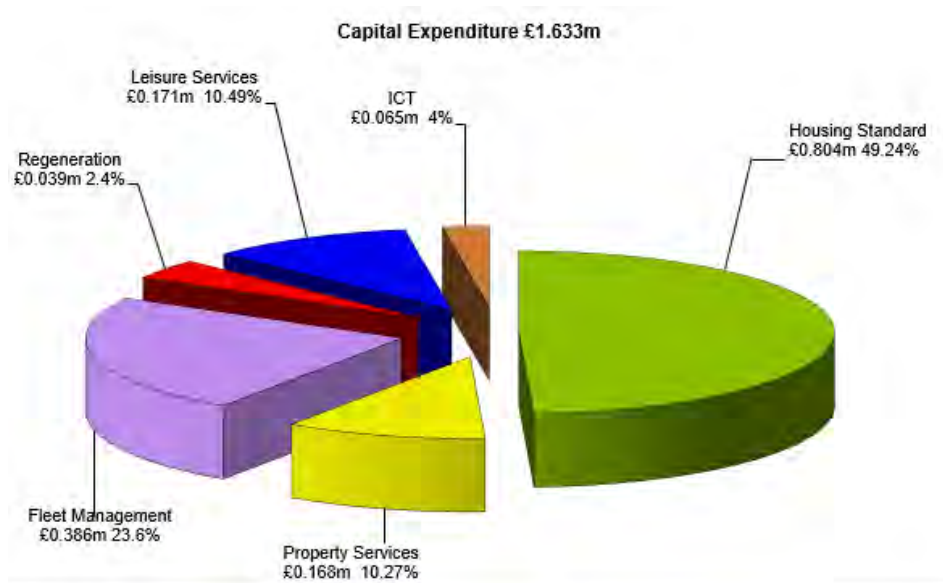

Capital Spending

Capital spending either maintains or creates new assets that will contribute to the Council's aims and objectives over more than one year. The Council therefore plans and budgets for capital expenditure by means of a four-year 'rolling' capital programme. This programme was last updated in February 2023 and included capital commitments of £21.3million over the period 2023/24 to 2026/27.

How the money was spent

The actual spend in 2022/23 was £1.633million. This spend was £0.7million less than that budgeted for the year. Major areas of capital expenditure and significant individual projects included:

- Property – resurfacing of car parks and leisure centre and boundary walls structural works (£0.168million);
- Fleet Management – acquisition and enhancement of vehicles, through direct purchase, for the Council's joint operation, Alliance Environmental Services (£0.365million).
- Housing Standards - disabled facilities grants (DFG), (£0.804million)
- Leisure – Grants to Sports clubs (£0.171million)

How it was paid for

There are several sources from which the Council can fund capital expenditure. The funding of the 2022/23 capital programme is illustrated below:

- Grants – contributions from third parties and Central Government grants. The latter providing majority funding of the DFG programme.
- Revenue Reserves – over time the Council has built up revenue reserves for the purpose of supporting future capital projects.
- Capital Receipts – income from the sale of assets.
- Borrowing – this equates to both funding by internal resources and external borrowing. The latter includes borrowing from other Local Authorities.

The Balance Sheet Perspective

At the end of 2022/23 the Council's net worth, as reported on the Balance Sheet, stood at a net asset value of £46.755million. When compared to an opening value of £20.65million at the beginning of the year. This represents an increase in net worth of £26.105million.

	31 March 2022 £000	31 March 2023 £000
Long Term Assets	36,033	39,563
Capital Loan - Service Investment (Housing)	10,000	10,000
Net Current Assets (debtors, inventories, less creditors, other liabilities)	16,140	13,238
Borrowing	(12,669)	(7,642)
Pensions Liability	(28,410)	(7,357)
Other Long Term Liabilities and Provisions	(444)	(1,047)
Net Assets	20,650	46,755
Represented by: Usable Reserves	5,513	31,018
: Unusable Reserves	15,137	15,737

How can the Council have experienced such an increase in value when its revenue activities in the year resulted in a £0.320million reduction in reserves? The primary reason is the change in the valuation of the Council's long term pension liability. The £21.053million decrease in pension liability is explained below.

Pension Liability – under financial accounting regulations the Council's Balance Sheet must show the cumulative net value of its pension scheme if all the assets and liabilities became realisable or payable on the date the Balance Sheet is produced, 31st March. The reality of pension scheme liabilities is that they continue over the decades that the scheme members remain. However, this snapshot measurement draws attention to any underlying long-term strengths or weaknesses. The measurements applied to the Council's scheme at the end of 2022/23 decreased the liability reported on the Balance Sheet by £21.035million to £7.357million. The pension valuation is performed on behalf of the Council by suitably qualified professionals guided by statute and best practice. In arriving at their valuation, they will apply their professional expertise and statistical analysis on assumptions around, for example, expected returns on investments and projected future pension liabilities. Their 2022/23 valuation recorded a 2% increase in the expected yield from Corporate Bonds and this alone was sufficient to reduce the Council's liability by £32.54million. Significant fluctuations in these annual valuations are not uncommon and are, therefore, not seen as a true reflection of the Council's short to medium term liability.

The value of the pension as reported on the Balance Sheet is a significant liability for the Council. However, because this liability only falls due over the long term, measures have been put in place that ensure the Council's continuing financial viability. At a national level Government has altered future scheme benefits and entitlements while locally both

Council and employee contributions have increased. In addition, the Council makes annual lump sum contributions into the fund to further reduce the deficit.

The Council’s Corporate Plan

Following the local elections in May 2019, the Council developed a Corporate Plan covering the period 2019-2023 which supports the vision of ‘Achieving excellence in the delivery of high quality services that meet the needs and aspirations of our communities’. A new Corporate Plan is in development following the local elections in May 2023.

The vision of the current plan is articulated by four aims which are supported by several objectives that provide the framework for delivery of individual service plans.

These are summarised below:

	Aim	Objectives
1	Help create a safer and healthier environment for our communities to live and work	<ul style="list-style-type: none"> • Increased supply of good quality affordable homes • Develop a positive relationship with communities • Effective relationship with strategic partners • Effective support of community safety arrangements including CCTV • Provision of sports facilities and leisure opportunities focused upon improving health
2	Use resources effectively and provide value for money	<ul style="list-style-type: none"> • Effective use of financial and other resources to ensure value for money • Ensure services are easily available to all our residents in the appropriate channels and provided “right first time” • A high performing and well-motivated workforce • Effective procurement with a focus on local business • Effective use of ICT • More effective use of Council assets
3	Help create a strong economy by supporting further regeneration of towns and villages	<ul style="list-style-type: none"> • Encourage business start-ups and enterprises • Flourishing town centres that support the local economy • Encourage and develop tourism • High quality development and building control with an “open for business” approach
4	Protect and improve the environment and respond to the climate emergency	<ul style="list-style-type: none"> • Effective recycling and waste management • Meeting the challenges of climate change • Provision of high quality public amenities, clean streets, and environmental health • Provision of quality parks and open spaces • Car parking arrangements that meet the needs of residents, businesses, and visitors

Our Performance Framework, which measures our success in delivering the Corporate Plan, also reflects the three pillars of value for money: economy, efficiency and effectiveness and is fully aligned to the Council's corporate objectives. The Council publishes an Annual Report, which takes stock of the progress made in delivery of the Corporate Plan objectives and uses comparative performance and cost measures to help shape the Council's refreshed objectives.

Following the completion of an organisation-wide service transformation process in 2016/17, the Council developed, in partnership with its workforce, a new set of core values called 'CHOICE'. These values are reinforced through the Council's approach to appraisal and employee development called PEP – Plan, Enable, Perform.

Risk Management

The Council ensures that it undertakes a deliberate and systematic identification of the key risks that might prevent, degrade, delay, or enhance the achievement of its objectives and priorities. The Council's Risk Management Strategy sets out the process for undertaking this on an ongoing basis. In addition to the identification of risks, managers also quantify them in terms of likelihood and potential impact. The risks are then recorded in the Council's Risk Registers. These have three aspects – strategic, operational and project risks. The Council's Strategic, Operational and Project Risk Registers are reviewed on a quarterly basis and reported into the Corporate Risk Management Group and the Audit and Accounts Committee on an exception basis.

Our Performance in 2022/23

The Council used a range of financial and other indicators to measure performance in 2022/23. At the end of March, 60% of the Council's performance targets for the year had been met, an 8% dip on last year. In terms of trends, 56% of measures had either maintained or improved on their previous year's performance.

The Council also exceeded its targets in a number of areas including: processing of new benefits and change of circumstances claims, external sports funding secured, self-serve interactions, customer portal accounts, repeat complaints, business unit occupancy, town centre vacancy rates, street cleanliness standards, missed bins, sickness absence, council tax and business collection rates, high risk food premises inspected and planning applications processed in time.

The service areas which fell short of target include: homelessness applications opened at prevention stage, settled accommodation outcomes, use of temporary accommodation in excess of 6 weeks, FOI request response times, agent satisfaction with the planning process, planning enforcement cases resolved in 13 weeks, complaint

handling within timescale, procurement activity on forward plan and estimated recycling rates. Targets have returned to pre-covid levels which has impacted some service areas, the challenges within the housing market nationally have also affected the results in that service area.

For those measures that fell below the target set for the year, we have developed actions for improvement, where feasible, as part of our performance reporting to senior managers and members. As well as comparing performance over time and against target, we also compare our performance with other Councils nationally through local benchmarking clubs and data platforms such as CFO Insights, Place Analytics and LG Inform.

Delivering against our Corporate Aims

The Council's Corporate Plan has four key aims, and below we have highlighted some of our achievements last year in relation to each of them.

Help create a safer and healthier environment for our communities to live and work

- This aim covers our objectives around affordable housing, sports and leisure, community safety, community relations and the effectiveness of our strategic partnerships. Last year we:

- ✓ Secured funding of £1,980,643 to support the physical activity and sports strategy
- ✓ The Council is to benefit from £17,110,892 from the Governments Levelling Up fund, to be used towards Brough Park Leisure Centre, together with Leek Butter Market and the Nicholson Institute.
- ✓ Developed the Move More Strategy involving a host of external partners and stakeholders
- ✓ Supported the Homes for Ukraine initiative
- ✓ Held a strategic partnership forum to develop a joint response to the cost of living crisis
- ✓ Allocated £400,000 towards a range of capital projects in Cheadle, Forsbrook, Knypersley, Draycott and Biddulph Moor which will see more opportunities for people to be physically active available to the community
- ✓ Created a new play and outdoor sports facilities improvement plan which will see £320,000 invested over the next four year period on Council owned facilities

Meet financial challenges and provide value for money – This aim covers our objectives around value for money, customer access, use of assets and a high performing and motivated workforce. Last year we:

- ✓ Developed an Access to Services Strategy and action plan to ensure services are accessible to all
- ✓ Enabled 53% of all transactions to be carried out through self-serve options
- ✓ 43,770 customer portal accounts in use
- ✓ Implemented a new procurement strategy with a focus on spending money locally

- ✓ Awarded 26% of contracts worth in excess of £5,000 to local suppliers who submitted expressions of interest
- ✓ Developed the new Organisational Development Strategy to ensure effective workforce development and use of apprenticeships.
- ✓ Invested over £27,000 in employee training
- ✓ Employed four apprentices (Alliance): two transferred to Alliance Norse, two still completing their course (level 2 and level 7)
- ✓ Introduced the new pay grade structure in January 2023
- ✓ Launched the new wellbeing hub and trained ten mental health first aiders
- ✓ Prepared the launch of the new Digital Strategy in conjunction with SOCITM
- ✓ Made 65,000 mandatory payments of £150 on behalf of the Government to help households with rising energy bills (Alliance)

Help create a strong economy by supporting further regeneration of towns and villages – This aim covers our objectives around tourism, flourishing town centres, encouraging new business and promoting an open for business approach in our development and building control functions. Last year we:

- ✓ Were awarded £17.1million from the Levelling Up Fund to provide enhanced wellbeing, cultural and retail amenities at three key sites: Brough Park Leisure centre; Butter and Trestle Markets; Nicholson Institute
- ✓ Reopened the Nicholson Institute and delivered a range of events and exhibitions
- ✓ Worked with Support Staffordshire and others to secure a grant of up to £943,000 from Arts Council England through their Creative People and Places programme (2022-25) for a project – Outside – to increase participation in the arts
- ✓ Launched the first phase of applications for grants and funding opportunities made available from the £3.4m UK Shared prosperity Fund. The three investment priorities are: communities and place; supporting local business; people and skills.
- ✓ Achieved a town centre average vacancy rate of 10.5%, the national average is 11.8%
- ✓ Determined 100% of 'major' planning applications in time
- ✓ Visited 100% priority1 planning enforcement cases within 24 hours

Protect and improve the environment – This aim covers our objectives around waste and recycling, clean streets, environmental health, quality parks and open spaces, climate change and car parking. Last year we:

- ✓ Delivered the Climate Change Strategy and introduced the Community Climate Change Fund to provide support to local community projects. Our Climate Change plan was rated as the second best in the country following an independent review by Climate Emergency UK
- ✓ Secured funding for a new multi-use games area at Hot Lane in Biddulph Moor

- ✓ Improved the facilities at Brough Park and John Hall Gardens
- ✓ Completed the successful transfer of countryside parks to Staffordshire Wildlife Trust
- ✓ Maintained the Green Flag award at Ladderedge Country Park for the 9th consecutive year
- ✓ Achieved street cleanliness standards of 94.17% and supported 282 community clean-up campaigns
- ✓ Obtained a £32,000 Fly-Tipping Intervention Grant from DEFRA
- ✓ Achieved low residual waste tonnages
- ✓ Used only 655 reams of paper across the Alliance

Key Strategic Partnerships

Strategic Alliance

In 2008 Staffordshire Moorlands District Council entered into a “Strategic Alliance” (the Alliance) with our neighbours, High Peak Borough Council. The primary aim of the Alliance is, through joint working, to drive through service improvements, whilst reducing costs to increase value-for-money and minimise future Council Tax increases. The arrangement, which features a fully integrated Joint Senior Management Team and widespread joint service delivery, crosses both county and regional boundaries. The Alliance sits at the heart of the Council’s Efficiency and Rationalisation Strategy.

Alliance Environmental Services Limited (AES) Joint Venture

From 2017 the Council established a joint venture partnership with Alliance partner High Peak Borough Council and Ansa (a subsidiary of Cheshire East Council) to deliver waste collection, street cleansing, grounds maintenance and fleet management services.

The collaborative arrangement has been assessed to be a joint operation and is therefore consolidated into the single entity financial statements of both Councils. This is described in note 2e ‘Interests in companies & other entities and joint arrangements’.

Alliance Norse Limited Facilities Management Services Joint Venture

The Council established a joint venture partnership in 2022 with Alliance partner High Peak Borough Council and Norse Commercial Services (a trading arm of Norse Group under Norfolk County Council) to deliver facilities management, property services and other maintenance services. From 1st April 2024 the Council’s Disabled Facilities Grant Programme will also be delivered through Alliance Norse Ltd with partner N-Able. The collaborative arrangement has been assessed to be a joint operation with and is therefore consolidated into the single entity financial statements of both Councils respectively. This is described in note 2e ‘Interests in companies & other entities and joint arrangements’.

Explanation of the Financial Statements

The Statement of Accounts for the year ended 31st March 2023 has been prepared in accordance with the Accounts and Audit Regulations 2015. The format and content of the financial statements are prescribed by the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, which in turn is underpinned by the International Financial Reporting Standards.

The Council's core financial statements, beginning at page 22, are listed below along with a brief explanation of their purpose:

- ***Movement in Reserves (MIRS)*** - this statement shows the movement in the year on the different reserves held by the Authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus/(Deficit) on the Provision of Services line shows the true economic cost of providing the Council's services, more details of which are shown in the Comprehensive Income & Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund for Council Tax setting purposes. The Net Increase/(Decrease) before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to/from earmarked reserves undertaken by the Council.
- ***Comprehensive Income & Expenditure Statement (CIES)*** – this statement is fundamental to the understanding of the Council's activities; in that it reports the net cost for the year of all the functions for which the Council is responsible and demonstrates how that cost has been financed from general government grants and income from local taxpayers.
- ***Balance Sheet*** - this explains the Council's financial position at the year-end. It provides details of the Council's balances and reserves and its long-term indebtedness. It also shows the value, as at the Balance Sheet date, of the assets and liabilities recognised by the Council.
- ***Cash Flow Statement*** - this illustrates the inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes.

In addition, the Council is also required to produce one supplementary statement:

- ***Collection Fund*** - this reflects the statutory requirement for the Council to maintain a separate account providing details of receipts of Council Tax and Business Rates and the associated payments to precepting authorities.

The 2022/23 Statement of Accounts shows that our finances remain sound. Revenue and Capital spending are controlled by affordable budgets while assets and reserves exist to support services and the achievement of key priorities.

Martin Owen, MBA FCCA CMgr FCMI
Executive Director & Chief Finance Officer
Date: 17th April 2024

CERTIFICATE OF APPROVAL BY AUDIT & ACCOUNTS COMMITTEE

I confirm that these accounts were approved by the meeting of the Audit and Accounts Committee held on 16th February 2024

Councillor Matthew Spooner
Chair of the Audit & Accounts Committee
Staffordshire Moorlands District Council
Date :17th April 2024

Statement of Responsibilities for the Statement of Accounts

The Council's Responsibilities

The Council is required:

- To make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Executive Director & Chief Finance Officer (CFO);
- To manage its affairs to secure economic, efficient, and effective use of resources and safeguard its assets; and
- To approve the Statement of Accounts.

The Executive Director's Responsibilities

The Executive Director (CFO) is responsible for the preparation of the Council's financial statements. These, in terms of the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code of Practice'), are required to present the true and fair financial position of the Council at the accounting date and its income and expenditure for the year (ended 31st March 2023).

In preparing this Statement of Accounts, the Executive Director (CFO) has:

- Selected suitable accounting policies and applied them consistently.
- Made judgements and decisions that were reasonable and prudent
- Complied with the Code of Practice.

The Executive Director (CFO) has also:

- Kept proper accounting records which were up to date
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of the Executive Director (CFO)

I certify that this Statement of Accounts gives a 'true and fair' view of the financial position of the Council at 31st March 2023 and its income and expenditure for the year.

Martin Owen, MBA FCCA CMgr FCMI
Executive Director & Chief Finance Officer
Staffordshire Moorlands District Council

Statement of Accounting Policy

The purpose of this section is to explain the basis for the recognition, measurement and disclosure of transactions and other events in the accounts.

1. Accounting Policies

The Accounting Policies set out from page 77 have been applied in producing the statements. They are based on best practice and legislative requirements, including CIPFA's Code of Practice on Local Authority Accounting in the United Kingdom for 2022/23 (the Code).

2. Accounting Standards Issued, Not Adopted

A number of new or amended standards have been issued that are not yet included in the Code. The Authority is obliged to consider what, if any, the impact would have been on these Statements had they been applied in 2022/23.

Leases (IFRS 16): introduces a single lessee accounting model:

The implementation of IFRS 16 has been deferred by CIPFA until the 2024/25 Code so it does not impact these Statements. It is included here in anticipation of its implementation and in recognition of the potential material impact it may have and the work that will be necessary to satisfy its requirements. The Council has already commenced with identifying the relevant assets and liabilities of all leases with a term of more than 12 months including right-of-use assets. Subsequent recognition in the Statements will also require valuation of both the asset and the Council's obligation to make lease payments. At this stage of the process it is not possible to give a reasonable estimate of the financial impact adopting the standard will have.

There are a small number of new or amended Standards, none of which are expected to impact this Council:

- IAS8 (Definition of Accounting Estimates) - will be amended to define accounting estimates as 'monetary amounts in financial statements that are subject to measurement uncertainty'.
- IAS1 and IRFS Practice Statement 2 (Disclosure of Accounting Policies) – will be amended to give more guidance on the disclosure of accounting policies in financial statements.
- IAS12 (Deferred Tax related to Assets and Liabilities arising from a Single Transaction) – this would have limited applicability as the Council does not have group accounts.
- IFRS 3 (Updating a Reference to the Conceptual Framework) – this would have limited applicability as the Council does not have group accounts.

[IAS = International Accounting Standards : IFRS = International Financial Reporting Standard]

3. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in part 1 of this section, the Council has had regard to the materiality of the transactions being reported. It has also had to make certain judgments about complex transactions or those involving uncertainty about future events. The critical judgments made in the Statement of Accounts are:

- The collaboration companies Alliance Environmental Services Ltd (between Staffordshire Moorlands District Council, High Peak Borough Council and Ansa Environmental Services Ltd) and Alliance Norse Ltd. (between Staffordshire Moorlands District Council, High Peak Borough Council and Norse Commercial Services Ltd) have been determined to be Joint Operations and are therefore consolidated in to Staffordshire Moorlands District Council's and High Peak Borough Council's single entity financial statements, i.e. there is no requirement for separate group accounts. The relationship, details of this assessment and financial performance and results of the companies are included in note 2e 'Interests in companies & other entities and joint arrangements'.

4. Assumptions Made about the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends, and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31 March 2023 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties
------	---------------

Pensions Liability	<p>Estimation of the net liability to pay pensions depends on several complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied (Note 4f highlights key assumptions). A 1% change in the assessed carrying value of the Council's pension liability equates to £735,700 (total £7,357,000).</p> <p>Pension funds exist to provide retirement benefits into the future and their valuation reflects both these commitments and the predicted income streams from contributions and investments over the long term. This extended timeframe means that while valuations may reflect immediate economic conditions their impact will tend to smooth out over time</p>
Asset Valuations	<p>The valuations of property, plant and equipment reported in the Balance Sheet and the related depreciation charges made to the CIES are based on an estimation of their value and asset life. A firm of qualified valuers is engaged by the Council to carry out, for the major assets, a programme of physical valuations to ensure that their carrying values are subject to professional and independent assessment. A 1% change in the assessed carrying value of the Authority's assets equates to £395,630 (total £39,563,000).</p>

Financial Statements

The core single entity financial statements applicable to all local authorities comprise:

- **Movement in Reserves Statement**
- **Comprehensive Income & Expenditure Statement**
- **Balance Sheet**
- **Cash Flow Statement**

The core financial statements are followed by supporting notes and the supplementary statements relating to:

- **Collection Fund**

Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Council's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance for Council Tax setting purposes. The Net Increase/Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

Comprehensive Income & Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Balance Sheet

The Balance Sheet provides an overall summary of the financial position of the Council as at 31st March 2023. It shows the Council's balances and reserves and its long-term indebtedness, and the value as at the Balance Sheet date of the assets and liabilities recognised by the Council.

31st March 2022		Notes	31st March 2023

11,952	Cash and Cash Equivalents at the Beginning of the Reporting Period	7	14,023
14,023	Cash and Cash Equivalents at the End of the Reporting Period		9,658

Notes to the Financial Statements

The notes to the core financial statements are shown below. Some are dictated by statute while others are included to add clarity.

1. Amounts Reported for Resource Allocation Decisions

Decisions about resource allocation are taken by the Council's Cabinet on financial reports prepared on a different basis from the accounting policies used in the financial statements. In particular:

- no charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged to services in the Comprehensive Income and Expenditure Statement); and
- the cost of retirement benefits is based on cash flows (payment of employer's pensions contributions) rather than current service cost of benefits accrued in year.

The following tables analyse and show the relationship between the statutory statements and the financial information reported to and used by the decision makers.

1a. Expenditure and Funding Analysis

The objective of the Expenditure and Funding Analysis is to demonstrate to Council Tax payers how the funding available to the Council (i.e. government grants, Council Tax and Business Rates) for the year has been used in providing services in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the Council's service areas. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Adjustments for Capital Purposes

Adjustments to General Fund Balances to meet the requirement of generally accepted accounting practices.

Within Cost of Services

- adds in depreciation and impairment on Assets used by the service; and
- adjusts for any revaluation gains and losses on those Assets.

Within Other Income and Expenditure

- Adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- Statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.

- Capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year.
- Credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Net Change for the Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income.

Within Cost of Services

- The removal of the employer pension contributions made by the Council as allowed by statute and the replacement with current service costs and past service costs.

Within Other Income and Expenditure

- Records the net interest on the defined benefit liability charged to the Comprehensive Income and Expenditure Statement.

Adjustments for Other Differences

Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute.

Within Cost of Services

- Statutory adjustment for a financial instrument relating to a decision to issue a soft loan (below market rates)
- Accounting for the employee accumulated absence liability.

Within Other Income and Expenditure

- Adjustments to the General Fund for the timing differences for premiums and discounts.
- The difference between what is chargeable under statutory regulations for Council Tax and Business Rates that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

1c. Expenditure and Income Analysed by Nature

This represents a subjective analysis of the Surplus/Deficit on the Provision of Services as reported in the Comprehensive Income and Expenditure Statement.

	2021/22 £000	2022/23 £000
Employee Expenses	9,859	10,102

(6,003)	Total Analysed on a Segmental Basis	(5,764)

2. Net Cost of Services

The following notes consider transactions included in the Cost of Services in the Comprehensive Income & Expenditure Statement in more detail.

2a. Members' Allowances

The Council paid the following amounts to members of the Council during the year.

	2021/22 £	2022/23 £
Allowances	249,381	254,795
Expenses	1,864	4,353
Total	251,245	259,148

2b. Officers' Remuneration

Remuneration paid to the Council's senior employees: Under the management arrangements for the Alliance, costs and responsibilities for senior posts are shared

between Staffordshire Moorlands District Council and High Peak Borough Council based on the proportion of time allocated to the two Authorities, including Housing Revenue Account responsibilities at High Peak. In line with the regulations, the remuneration of senior officers is included in the disclosure within the Statement of Accounts of the Authority by whom they are employed and paid.

2022/23	Salary, Fees and Allowances	Expenses Allowances	Total (excl Pension cont)	Pension Contribution	Total (inc Pension cont)	Charge to SMDC	Net Charge to HPBC

	551,138	7,704	558,842	73,849	632,691	257,879	374,812

Termination benefits paid to the Council's non senior employees:

There were no termination benefit departures during 2022/23. There was one senior departure in 2021/22, this is shown in the table above.

A further £422,650 is payable in future pension strain contributions on staff departures that took place between 2010 and 2016.

High Peak Borough Council is liable for £126,546 of these future pension strain costs as they become payable to the Pension Fund

2c. Related Parties

The Council is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government - has effective control over general operations of the Council. It provides the statutory framework, provides most of the funding and prescribes the terms of many transactions with other parties (such as Housing Benefit).

Local Authorities – such as Staffordshire County Council, Staffordshire Police and Crime Commissioner and Staffordshire Fire and Rescue Authority and local Parish Councils issue precepts on the Council which are shown in the Collection Fund. The County administers the Council's pension fund. There are other transactions with these authorities involving service provision and funding.

Subsidiary, associated companies or joint ventures:

The Strategic Alliance with High Peak Borough Council involves development of joint working at all levels, including shared resources and staff. The two Authorities, however, retain their political and financial independence and accountability. The Strategic Alliance has joined with Ansa (a wholly owned subsidiary of Cheshire East Council) to create a joint operation called Alliance Environmental Services Limited (AES) to deliver waste, street cleansing and grounds maintenance services in the Staffordshire Moorlands and High Peak areas. The Strategic Alliance has also joined with Norse Commercial Services (a trading arm of Norse Group under Norfolk County Council) to deliver facilities management, property services and other maintenance services). Section 2e gives further detail about the Strategic Alliance, AES, and Alliance Norse.

Members - have direct control over the Council's financial and operating policies. The Council also nominates Members to sit on outside bodies. Several Council Members are also Members of Staffordshire County Council, local parish councils, or various local voluntary organisations, which the Council supports financially. Those charitable organisations that received Council funding that could be considered a material proportion of their total turnover, where Members have declared an interest were:

Charity	Funding £000
Biddulph in Bloom	6
Cheadle in Bloom	6
Staffordshire North and Stoke-on-Trent Citizens Advice Bureau	23
Leek Citizens Advice Bureau	20
Biddulph Youth & Community Zone	27

Council Members make disclosures of relevant interests to the Council's Monitoring Officer, and have to make declarations on individual committee decisions. The Register of Member Interests is open to public inspection, subject to prior notice, at Moorlands House.

Officers – have scope, in some circumstances, to influence Council policy. The Chief Executive Officer maintains a record of officer interests which, together with the Council's standards and procedures, acts as a guard against undue influence.

Related Party Transactions:

Material transactions with Central and other Local Government organisations are separately reported throughout the Statements, including the analyses of precepts, grants, and pension contributions. There are no material transactions or evidence suggesting undue influence in relation to Members or Officers.

2d. Audit Costs

The costs set out below have been incurred in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors Grant Thornton.

	2021/22	2022/23
	£000	£000
Fees payable to the appointed auditors for external audit services carried out for the year	59	61
Fees payable to the external auditors for the certification of grant claims and returns for the year	13	13
Fees payable in respect of other services provided by the external auditors during the year	10	9
Total	82	83

2e. Interests in companies & other entities and joint arrangements

The Council has financial interests with several entities and actively pursues working in partnership with other organisations where this can improve efficiency and effectiveness in achieving key priorities. Some of the more significant joint arrangements are detailed below:

High Peak Borough Council - Strategic Alliance

On 11th June 2008, the strategic Alliance between Staffordshire Moorlands District Council and High Peak Borough Council was formally sealed at a signing ceremony in the presence of both Council leaders. The aim of the Alliance is not only to produce savings through joint procurement and working, but also to draw on the expertise of both Authorities and, in doing so, improve service provision.

Any costs and savings, incurred and accruing in an accounting period, are accounted for by the relevant Authority. The Alliance-related expenditure of Staffordshire Moorlands District Council amounted to £3.021million in 2022/23 (£2.896million in 2021/22). The corresponding income received from High Peak Borough Council was £3.209million in 2022/23 (£3.047million in 2021/22).

	Paid by SMDC to HPBC	Paid by HPBC to SMDC
	£000	£000
Contribution to Employee Costs	2,344	2,075
Contribution to Other Costs	677	1,134
Total	3,021	3,209

Alliance Environmental Services Ltd (Registered company number 10760856)

Alliance Environmental Services Ltd (AES) is a company created to deliver waste, fleet, street cleansing and grounds maintenance services in the Staffordshire Moorlands and High Peak areas. The company has three shareholders: Staffordshire Moorlands District Council, High Peak Borough Council and Ansa, which is a wholly owned subsidiary of Cheshire East Council.

The company was incorporated under the Companies Act 2006 on 9 May 2017 as a private company limited by shares. It has issued ordinary shares of £1.00 each in the volume of 150 to Ansa, 25 to Staffordshire Moorlands District Council and 25 to High Peak Borough Council. The registered office of the company is c/o Ansa Environmental Services Ltd, Environmental Hub C/o Ansa Environmental Services Limited, Cledford Lane, Middlewich, Cheshire, England, CW10 0JR.

The relationship between the shareholders has been assessed to establish the nature of the collaborative activity and how this should be presented in the Council's financial statements. There is a signed shareholders' agreement between all three parties setting out the terms and conditions on which all parties have agreed to participate in the company and the rights and obligations of each of them as its members, thus the collaborative activity constitutes an arrangement. Furthermore, specific clauses in the agreement confirm that unanimous consent is implicit in the agreement, therefore the authorities equally have joint control of the arrangement.

The agreement indicates that the Council has rights to the assets and obligations for the liabilities of the company, rather than rights to net assets, therefore the arrangement is classified as a Joint Operation. A joint operation does not require separate group accounts, instead a proportion of the company's Balance Sheet and the outturn on service expenditure and income, in line with the percentage provision of services to each Council, are consolidated line by line into the Council's own Comprehensive Income and Expenditure Statement, Cash Flow Statement and Balance Sheet. This consolidation has

the effect of analysing the elements of the management fee paid to AES for service delivery between employees, transport, supplies & services, and income and brings in the surplus achieved on the company's profit and loss showing the overall cost of the service.

The company has reported a profit at the balance sheet date, which is held on the company's balance sheet in reserves. During the year, AES has provided services in proportion of 48% to Staffordshire Moorlands District Council and 52% to High Peak Borough Council. These proportions are shown in the tables below and are consolidated into the respective Councils' financial statements.

31 March 2022 based on current year share of operations £'000	Council share of AES Balance Sheet	31 March 2023 based on current year share of operations £'000
1,353	Current Assets	1,055
1,353	TOTAL ASSETS	1,055
(1,100)	Current Liabilities	(756)
0	Long Term Liabilities	(18)
(1,100)	TOTAL LIABILITIES	(774)
253	TOTAL NET ASSETS	281
	<u>Capital and Reserves</u>	
253	Retained Earnings	281
253	TOTAL RESERVES	281

2021/22 £000	Council share of AES Income and Expenditure Statement	2022/23 £000
(5,782)	Turnover	(6,142)
4,471	Cost of Sales	5,068
(1,311)	Gross Profit	(1,074)
1,261	Administrative Expenses	1,048
(50)	Profit from Operating Activities	(26)
1	Finance Costs	(8)
9	Corporation Tax Expense/ (Refund)	6
(40)	(Profit)/Loss for Year	(28)

(both tables have been updated to reflect the AES 2021/22 audited accounts)

This share of the company's profit is included in the Net Expenditure position in the Council's Comprehensive Income & Expenditure statement (CIES) for Waste Collection, Street Scene, and Horticulture Services along with the total management fee paid to the company less the efficiency rebate:

AES net management fee included in CIES	2022/23
	£000
Management fee and charges	4,785
Less efficiency rebate	(25)
Net management fee	4,760
Less Joint Operation profit allocation	(28)
Total	4,732

Alliance Norse Ltd - (Registered company number 13861679)

Alliance Norse Limited is a company created to deliver facilities management, property services and other maintenance services in the Staffordshire Moorlands and High Peak areas. The company has three shareholders: Staffordshire Moorlands District Council, High Peak Borough Council and Norse Commercial Services Limited, a trading arm of the Norse Group which is wholly owned by Norfolk Country Council.

The company was incorporated under the Company Act 2006 on 20 January 2022 as a private company limited by shares. It has issued ordinary shares of £0.25 each in the volume of 30 to Norse Commercial Services Ltd, 5 to Staffordshire Moorlands District Council and 5 to High Peak Borough Council. The registered office of the company is 280 Fifers Lane, Norwich, Norfolk, NR6 6EQ. Phase 1 of the project to deliver corporate cleaning and caretaking services went live on 1 April 2022 and phase 2, for the delivery of the remainder of the services, on 4 July 2022.

The relationship between the shareholders has been assessed to establish the nature of the collaborative activity and how this should be presented in the Council's financial statements. There is a signed shareholders' agreement between all three parties setting out terms and conditions on which all parties have agreed to participate in the company and the rights and obligations of each of them as its members, thus the collaborative activity constitutes an arrangement. Furthermore, specific clauses in the agreement confirm that unanimous consent is implicit in the agreement, therefore the authorities equally have joint control of the arrangement.

The agreement indicates that the Council has rights to the assets and obligations for the liabilities of the company, rather than rights to net assets, therefore the arrangement is classified as a Joint Operation. A joint operation does not require separate group accounts, instead the Council's share of the company's Balance Sheet and the outturn on service expenditure and income are consolidated line by line into the Council's own Comprehensive Income and Expenditure Statement, Cash Flow Statement and Balance Sheet. This consolidation has the effect of analysing the elements of the total fee paid to Alliance Norse Ltd for service delivery between employees, transport, supplies & services, and income and brings in the surplus achieved on the company's profit and loss showing the overall cost of the service.

The company has reported a profit at the balance sheet date, which is held on the company's balance sheet in reserves. During the year Alliance Norse Limited has provided services in proportion of 11% to Staffordshire Moorlands District Council and 89% to High Peak Borough Council (24% to the General Fund activities, and 65% to the Housing Revenue Account (HRA) activities). These proportions are shown in the tables below and are consolidated into the respective Councils' financial statements.

31 March 2022 based on current yr share of operations £'000	Council share of Alliance Norse Ltd Balance Sheet	31 March 2023 based on current yr share of operations £'000
0	Non Current Assets	33
0	Current Assets	256
0	TOTAL ASSETS	289
0	Current Liabilities	(149)
0	Long Term Liabilities	(30)
0	TOTAL LIABILITIES	(179)
0	TOTAL NET ASSETS	110
	<u>Capital and Reserves</u>	
0	Share Capital	0
0	Retained Earnings	110
0	TOTAL RESERVES	110

2021/22 £000	Council share of Alliance Norse Ltd Income and Expenditure Statement	2022/23 £000
0	Turnover	(902)
0	Cost of Sales	938
0	Gross Profit	36
0	Administrative Expenses	(169)
0	Profit from Operating Activities	(133)
0	Corporation Tax Expense/ (Refund)	23
0	(Profit)/Loss for Year	(110)

This share of the company's profit is included in the Net Expenditure position in the Council's Comprehensive Income & Expenditure statement (CIES) for Property Services along with the total management fee paid to the company and the contract discount:

Alliance Norse Ltd net management fee included in CIES	2022/23 £000
Management fee	760
Less contract discount	(81)
Net management fee	679
Less Joint Operation profit allocation	(110)
Total	569

Capital additions through the Company of £129,320 are included in Note 6.

3. Corporate Income and Expenditure

The following notes consider transactions included in the Comprehensive Income & Expenditure Statement in more detail:

3a. Other Operating Expenditure

2021/22		2022/23
£000		£000

(8)		(32)
	Capital Grants Applied to CIES	
(1,774)	Disabled Facilities Grant	(1,774)
0	Capital Grants	(121)
(1,774)		(1,895)
	Credited to Services	
(10,664)	Housing Benefit Subsidy	(10,019)
	Central Government Support to Businesses	
(1,801)	and Residents	(78)
(361)	New Burdens Grants	(500)
(352)	Other Third Party Funds	(383)
(13,178)		(10,980)
(14,952)	Total	(12,875)

3e. Grant Income: Authority as an Agent

During 2022/23 the Council continued to administer grants on behalf of Central Government to facilitate support to local businesses and residents. The eligibility criteria and grant award amounts for some of these schemes were prescribed by Central Government, therefore, under accounting practice, the Council has acted as an Agent in delivering these grant schemes, rather than a Principal where the Council has a degree of control or discretion in grant awards. Where the Council acted as an Agent in delivering grants, the balance of any funding received to deliver these grants is included in the Balance Sheet as a Creditor where there are future grants to be awarded or surplus funding to be returned to Central Government upon closure of the grant scheme. These grants are summarised below:

Grants Authority as Agent	1st April 2022 Debtor/ (Creditors) Balance brought forward £'000	2022/23 Grant Awards/ (Repayments) £'000	2022/23 Funding Movement (Receipts)/ Repayments £'000	31st March 2023 Debtor/ (Creditors) Balance Carried Forward £'000
Small Business Grants Fund (SBGF) and Retail, Hospitality and Leisure Grant Fund (RHILGF)	(21)	0	0	(21)
Local Restrictions Support Grant (LRSG) Closed	(1)	(5)	0	(6)
Closed Business Lockdown Payment (CBLP)	0	(4)	0	(4)
Omicron Hospitality & Leisure Grant	(833)	0	833	0
Energy Support Grant	(5,412)	5,399	(365)	(378)
Covid 19 Isolation Scheme	(56)	1	0	(55)
	(6,323)	5,391	468	(464)

4. Retirement Benefits

The following notes consider the impact of accounting for retirement benefits on the Council's Statement of Accounts in more detail.

4a. Participation in Pension Scheme

As part of the terms and conditions of employment of its employees, the Council offers retirement benefits through membership of the Local Government Pension Scheme (LGPS). Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments, that need to be disclosed, at the time that employees earn their future entitlements. The Council is a member of the Staffordshire County Pension Fund, which is administered by Staffordshire County Council in accordance with the LGPS Regulations 1997. Overall strategy for the Fund is set by the Pensions Committee, which also monitors performance and administers the scheme. The appointment of Investment Managers is the responsibility of the Pensions Panel. Both bodies are made up of elected members. Further information can be found in Staffordshire County Council's Superannuation Fund's Annual Report, which is available upon request from the Pension Services Section, 1 Staffordshire Place, Tipping Street, Stafford ST16 2DH or via the Fund's website (www.staffspf.org.uk).

The Scheme is referred to as a 'Defined Benefit' and 'Funded' scheme.

Defined Benefit: the levels of benefit retiring members receive is based on their pay history and length of service.

Funded: a pension fund of investments is built up from employee and employer contributions to generate income streams out of which retirement benefits are paid. The Council pays contributions to the pension fund sufficient to ensure that it can meet future payment obligations. These contributions are set on rates that are determined by Hymans Robertson LLP, the pension fund's professionally qualified and independent actuaries and are based on triennial valuations of the fund. The Fund was last revalued as at 31st March 2022 and this set the required employer contribution rates for the three years commencing 1st April 2023. As the Fund is effectively underwritten by the employers, any deterioration in performance can have serious long term financial consequences for the Council. Steps have been taken nationally to mitigate this risk to the local taxpayer, by reforming the LGPS and introducing a greater element of future cost sharing between the scheme

employers and the scheme beneficiaries. A legal challenge to these reforms is on-going (see section 4g below).

4b. Transactions Relating to Retirement Benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against Council Tax is based on the cash payable in the year, so the real cost of post-employment/ retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	2021/22	2022/23
Comprehensive Income and Expenditure Statement:	£000	£000
Current service cost	(2,303)	(2,120)
Past service cost (including curtailments)	(67)	0
<i>Net Interest</i>		
Interest cost on defined benefit obligation	(2,224)	(2,849)
Interest income on plan assets	1,395	2,067
Total post employment benefit charged to the Surplus or Deficit on the provision of services	(3,199)	(2,902)
<i>Remeasurements</i>		
Changes in demographic assumptions	584	1,799
Changes in financial assumptions	7,067	35,812
Other experience	(171)	(11,161)
Return on assets excluding amounts included in net interest	7,085	(3,476)
Total post employment benefit charged to the Comprehensive Income & Expenditure Statement	11,366	20,072
<i>Movement in Reserve Statement</i>		
Reversal of net charges made to the surplus or deficit for the provision of services for post employment benefits in accordance with the Code	3,199	2,902
<i>Actual amount charged against the General Fund Balance for pensions in the year:</i>		
Employers contributions payable to the scheme	989	981

The Comprehensive Income & Expenditure Statement shows the net cost of the defined pension benefit liability as being £22,974,000. This figure takes into account the actual payments made to the Fund during the year. This differs from the Pension disclosures in note 4, which include the estimated employer pension contributions used by the Actuary in preparing the IAS19 report. The table below reconciles this difference and provides further detail:

Difference on Remeasurement of net defined benefit liability compared	2022/23	
	£000	£000
CIES Remeasurement of net defined benefit liability		22,974
Pensions - Total post employment benefit charged to services (above)	(2,902)	
Pensions - Total post employment benefit charged to CI&E (above)	(20,072)	(22,974)
Difference on CIES compared with Note 4		0
<u>Employer Contributions to Fund:</u>		
Actuarial estimate for IAS19 purposes		981
Actual contributions accounted for in 2022/23	2,036	
less 'prepaid' lump sum deficit payment	(1,055)	
		981
Difference on Estimation		0

4c. Assets and Liabilities in Relation to Retirement Benefits

The pension liability reported on the Balance Sheet shows the Council's projected liability on its share of the Staffordshire Pension Fund. This represents the underlying commitment to pay retirement benefits in the long run. It is a net figure comprising the following overall assets and liabilities for the Council's share of the Scheme.

Staffordshire Moorlands DC share of Pension Fund assets and liabilities	31-March-22 £000	31-March-23 £000
Estimated Assets in the Scheme	77,528	71,303
Estimated Liabilities in the Scheme	(105,938)	(78,660)
Net defined benefit obligation asset/ (Liability)	(28,410)	(7,357)

Comparison with Pension Reserve:

Pension Reserve (Note 12d)	(29,465)	(7,357)
Difference	(1,055)	0

The £21.053million decrease in the net liability reflects that the return on Corporate Bonds, used as an integral measure in the Actuary's valuation, had increased by 2% at the Balance Sheet date. The impacts of the McCloud judgement and GMP equalisations (explained and referred to in 4g below) are also reflected in the valuation. The relative movement in individual asset and liability valuations are set out in the following two tables.

Reconciliation of Liabilities (Obligations):

Year Ended	31st March	31st March
	2022	2023
	£000	£000
Opening defined benefit obligation	111,322	105,938
Current service cost	2,303	2,120
Interest cost on defined benefit obligation	2,224	2,849
Contributions by scheme participants	318	333
Changes in demographic assumptions	(584)	(1,799)
Changes in financial assumptions	(7,067)	(35,812)
Other experience	171	8,175
Benefits paid	(2,697)	(3,023)
Effect of settlements	67	0
Unfunded benefits paid	(119)	(121)
Closing Balance at 31 March	105,938	78,660

Reconciliation of Fair Value of Employer Assets:

Year Ended	31st March	31st March
	2022	2023
	£000	£000
Opening fair value of employer assets	70,557	77,528
Interest on plan assets	1,395	2,067
Remeasurements	7,085	(6,462)
Contributions by the employer	870	860
Contributions by plan participants	318	333
Benefits paid	(2,697)	(3,023)
Unfunded benefits paid	(119)	(121)
Contributions in respect of unfunded benefits	119	121
Closing fair value of employer assets	77,528	71,303

The profile of the scheme's liabilities is summarised in the table below:

Profile of Liabilities	Liability split
Active members	32.30%
Deferred members	20.63%
Pensioner members	47.10%
Total	100.0%

4d. Scheme History

Year Ended	31-Mar 19	31-Mar 20	31-Mar 21	31-Mar 22	31-Mar 23
	£000	£000	£000	£000	£000
Estimated Assets in the Scheme	58,947	54,281	70,557	77,528	71,303
Estimated Liabilities in the Scheme	(102,127)	(88,408)	(111,322)	(105,938)	(78,660)
Surplus/ (Deficit)	(43,180)	(34,127)	(40,765)	(28,410)	(7,357)

The liabilities show the underlying commitments that the Council has in the long run to pay retirement benefits. The total liability of £7.357million has a substantial impact on the net worth of the Council, as recorded in the Balance Sheet, which now stands, after accounting for these pension costs, at £45.923million. However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy. The deficit on the scheme will be made good by increasing contributions over the remaining working life of employees, as assessed by the scheme actuary. Employer’s contributions of approximately £1,967,000 will be made to the Fund in 2023/24.

4e. Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumptions about salary levels, mortality rates, etc. The scheme liabilities have been assessed by Hymans Robertson LLP an independent firm of actuaries, with estimates of the Staffordshire Pension Fund being based on the latest full valuation of the scheme as at 31st March 2022.

The principal assumptions used by the Actuary have been:

Financial:

Assumptions as at	31st March 2022 (% per annum)	31 st March 2023 (% per annum)
Pension Increase Rate	3.20%	3.00%
Salary Increase Rate	3.60%	3.50%
Discount Rate	2.70%	4.75%

Mortality:

Longevity beyond age 65	31st March 2022		31st March 2023	
	Males	Females	Males	Females
Current Pensioners	21.2 years	23.8 years	21.2 years	24.0 years
Future Pensioners	22.2 years	25.5 years	21.8 years	25.8 years

Commutation: An allowance is included for 50% (50% in 2021/22) of future retirements to elect to take additional tax free cash up to HMRC limits and 75% of the maximum tax-free cash for post-April 2008 service.

Asset Category

The Pension Scheme’s assets consist of the following categories, by proportion of the total assets held:

Asset Category	31 st March 2022		31 st March 2023	
	Fund Value £000	Asset Distribution %	Fund Value £000	Asset Distribution %
Equity Securities				
Consumer	2,610	3	2,400	3
Manufacturing	2,130	3	1,959	3
Energy & Utilities	585	1	538	1
Financial Institutions	2,778	4	2,555	4
Health & Care	2,934	4	2,698	4
Information Technology	3,374	4	3,103	4
Other	0	0	0	0
Debt Securities				
Corporate Bonds (investment grade)	4,554	6	4,189	6
Private Equity				
All *	3,841	5	3,533	5
Real Estate				
UK Property *	6,209	8	5,710	8
Investment Funds and Unit Trusts				
Equities	36,828	47	33,872	47
Bonds	4,852	6	4,463	6
Hedge Funds *	29	0	26	0
Infrastructure	207	0	190	0
Other *	3,558	5	3,272	5
Cash and Cash Equivalents				
All	3,039	4	2,795	4
Totals	77,528	100	71,303	100

* denotes asset prices not quoted in an active market

4f. Sensitivity to Changes in Actuarial Assumptions

The assumptions made by the Actuary are subject to change between valuation dates as a result of variations in such factors as longevity, investment return, and inflation. The table below illustrates the sensitivity to such changes and the consequent impact on the employer liability:

Sensitivity Analysis - change in assumptions at 31/3/23	Approximate % increase to Employer Liability	Approximate monetary amount (£000)
0.1% decrease in Real Discount Rate	2.0%	1,256
1 year increase in member life expectancy	4.0%	3,146
0.1% increase in the Salary Increase Rate	0.0%	172
0.1% Increase in the Pension Increase Rate	1.0%	1,102

4g. Impact of the McCloud Judgment

The McCloud Judgement relates to a legal challenge by members of the New Judicial Pension Scheme against the age-based transitional provisions put into place when new pension arrangements were introduced in 2015. The members argued that these transitional provisions were directly discriminatory on grounds of age and indirectly discriminatory on grounds of sex and race, based on the correlation between these two

factors reflected in the judicial membership. The impacts of McCloud have been included in the figures disclosed in this note.

Guaranteed Minimum Pension (GMP) was accrued by members of the LGPS between 6 April 1978 and 5 April 1997. The introduction of the new Single State Pension in April 2016 brought uncertainty over the ongoing indexation of GMPs, which could lead to inequalities between men and women's benefits. The responsibility for ensuring GMPs kept pace with inflation passed in full to pension schemes with the effect of increasing costs for LGPS employers. The Actuary made allowance for this in the pension costs included in 2019/20 statements. No change has been made to this position for 2022/23 and these costs remain in the Pension figures.

5. Adjustments Between Accounting Basis & Funding Basis Under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to arrive at the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

2022/23	General Fund Balance £000	Earmarked Reserve £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Movement in Unusable Reserves £000
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:

Other movements in Depreciation & Impairment	0	0	0	0	0	0	0
At 31 March 2022	(236)	(4,557)	0	0	(3)	0	(4,796)
Net Book Value							
at 31st March 2022	25,699	3,687	42	994	282	385	31,089
at 31st March 2021	24,940	2,864	42	925	405	549	29,725

Depreciation

The following useful lives have been used in the calculation of depreciation:

- Other Land & Buildings - Up to 60 years
- Vehicles, Plant, Furniture & Equipment - 3 to 25 years

6b. Investment Properties

The following items of income and expenditure have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	2021/22 £000	2022/23 £000
Rental income from investment property	(342)	(306)
Direct operating expenses arising from investment	26	25
Net (gain)/loss	(316)	(281)

The following table summarises the movement in the fair value of investment properties over the year:

	2021/22	2022/23
	£000	£000
Balance at start of the year	3,829	4,081
Net gain /(loss) from fair value adjustments	252	147
Balance at end of year	4,081	4,228

Fair Value Hierarchy

All the Council's investment property portfolio has been assessed as Level 3 (unobservable inputs) for valuation purposes (see accounting policy 23) for an explanation of fair value levels). There were no transfers between levels 1, 2 and 3 during the year. In 2022/23 the valuer carried out a desk top review of all investment properties.

Valuation Techniques used to determine level 3 Fair Values for Investment Properties

The fair value of investment property has been measured using the Investment Method of Valuation. The valuers have used a desktop valuation relying on data sourced from the Council's property records. Valuations have taken account of the following factors: existing lease terms and rentals taken from the tenancy schedule, independent research into market evidence including market rentals and yields, and then adjusted to reflect the nature of each business tenancy or void and the covenant strength for existing tenants. There has been no change in the valuation techniques used during the year for investment properties. The table below sets out the basis for the level 3 unobservable inputs applied in the valuation process:-

Investment Properties	As at March 2023	Valuation Technique Used to Measure Fair Value	Unobservable Inputs	Range (weighted average used)	Sensitivity
Land	£'000s 1,274	Market & Income Approach	Adjusted market evidence of rental lettings and sales of similar properties and investment yields	Rental range c. £3.00 to £9.50 per sqft. Investment Yields c.5% 12% for buildings and land	Significant changes to the individual inputs in rental growth; vacancy levels and investment yields could affect the reported value
Building	2,954				

Highest and best use of Investment Properties

In estimating the fair value of the Council's investment properties, the highest and best use of the properties is deemed to be their current use.

6c. Assets Held for Sale

The Council does not have any non-current assets classified as 'assets held for sale'.

6d. Valuation Information

Under statute the Council carries out a rolling programme that ensures that all property measured at current value or fair value as appropriate is revalued at least every five years. In addition to this requirement, the Council now revalues all its high value assets annually;

the total value of these assets in 2023 was £21.53million. The Council’s de minimis policy excludes the requirement to formally revalue assets with a current carry value of below £10,000; however, these assets are still subject to an internal desk top valuation.

All external valuations were carried out by Capita PLC, the Council’s valuing agents. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The effective date of each revaluation was 31st March 2023.

The significant assumptions applied in estimating the valuations are:

- that good title can be shown, and all valid planning permissions and statutory approvals are in place;
- that the property is connected and has a right to use mains services and that sewers, main services and roads giving access to it have been adopted;
- that an inspection of those parts not inspected would not reveal defects that would affect the valuation;
- that the testing of electrical or other services would not reveal defects that would cause the valuation to alter; and
- that there are no deleterious or hazardous materials or existing or potential environmental factors that would affect the valuation.

The valuation report, individual valuations and annual assessment for “indications” of impairment have been undertaken by Chris Wilkinson MRICS, Senior Property Surveyor & RICS Registered Valuer, Jill Angus MRICS, Senior Property Surveyor & RICS Registered Valuer and David Gray MRICS, Senior Valuation Surveyor & RICS Registered Valuer. There was no evidence of individual assets that had been impaired due to fire or other event, consequently, there was no requirement for an impairment review.

Following the adoption of IFRS 13, surplus assets assessment is now made at fair value, highest and best use at level 3 (under fair value hierarchy- see accounting policy 23 for fair value explanations). There were no transfers between levels 1, 2 and 3 during the year. In addition to the formal 5 year valuation, these assets are reviewed by the valuer each year individually.

The table below sets out the basis for the level 3 unobservable inputs applied in the valuation process:

Surplus Assets	As at March 2023	Valuation Technique Used to Measure Fair Value	Unobservable Inputs	Range (weighted average used)	Sensitivity
	£'000s				
Land	223	Market & Income Approach	Adjusted market evidence of rental lettings and sales of similar properties and investment yields	Rental rate range c. £27,000- £239,000 per hectare	Significant changes to the individual inputs in rental growth; vacancy levels and investment yields could affect the reported value
Building	62				

Vehicles, plant, furniture, and equipment are carried at depreciated historic cost as a proxy for current value.

The Table below shows the profile of valuations supporting the Gross Book Value reported as at 31st March 2023.

	Other Land & Buildings	Vehicles, Plant, Equipment	Surplus Assets	Infrastructure Assets	Community Assets	Assets Under Construction	Total
	£000	£000	£000	£000	£000	£000	£000
Carried at Historic cost		7,262		351	1,130	71	8,814
Valued at Current Value as at:							
31 March 2023	22,977		285				23,262
31 March 2022	3,586						3,586
31 March 2021	111						111
31 March 2020	1,243						1,243
31 March 2019	1,520						1,520
Total	29,437	7,262	285	351	1,130	71	38,536

6e. Capital Expenditure and Financing

The total amount of capital expenditure incurred in the year was £1,634,000. Details are shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR) – this is a measure of the capital expenditure incurred historically by the Council that has yet to be financed.

	2021/22	2022/23
	£000	£000
Opening Capital Financing Requirement	18,084	10,272
Capital Investment		
Property, Plant and Equipment	1,704	568
Investment Properties	0	0
Intangible Assets	73	49
Revenue Expenditure Funded from Capital under Statute	1,273	1,017
Capital Service Loan – Housing (Long Term Debtor)	10,000	0
	13,050	1,634
Sources of Finance		
Capital Receipts	(17,222)	(25)
Government grant and other contributions	(1,139)	(925)
Sums set aside from Revenue:		
Capital Reserves	(2,415)	(65)
Minimum Revenue Provision/ Loans Fund principal	(86)	(211)
	(20,862)	(1,226)
Closing Capital Financing requirements	10,272	10,680
Explanation of movements in year		
Increase in underlying need to borrow (unsupported by government financial assistance)	(7,726)	619
Minimum Revenue Provision	(86)	(211)
Increase / (Decrease) in Capital Financing Requirement	(7,812)	408
<i>Net capital investment in year excluding finance leases added to Balance Sheet</i>	<i>13,050</i>	<i>1,634</i>

Minimum Revenue Provision

The Council is obliged to make an annual charge to revenue for unfinanced capital expenditure. The charge is known as Minimum Revenue Provision (MRP). The requirement is based on a simple duty for an authority to make an amount of MRP, which it considers to be "prudent". In 2022/23, the Council made Minimum Revenue Provision of £211,000.

6f. Information on Assets Held

The main assets held by the Council are:

31 st March 2022 No.		31 st March 2023 No.
3	Town Halls and Council Offices	3
3	Markets	3
2	Industrial Estates	2
13	Public Conveniences	13
1	Depots	1
3	Leisure Centres	3
2	Cemeteries	2
1	Museums	1
28	Total	28

6g. Construction Contracts and Capital Commitments

At 31 March 2023, the Council has entered into contracts for the construction or enhancement of property, plant and equipment in 2023/24 and future years budgeted to cost £0.321million. Similar commitments at 31st March 2022 were £0.3million The major commitments are:

Scheme	Estimated Values £000	Period Investment will Take Place
Fleet Management	160	2023/24
Brough Park Leisure Centre	161	2023/24

6h. Assets Held under Leases - Authority as the Lessor:

Operating Leases

The Council leases out a number assets under operating leases. The Council acts as a lessor of commercial property, shops, and market stalls. Income from these sources in 2022/23 totalled £0.444million (£0.457million in 2021/22).

The future minimum lease payments receivable at current rental levels under operating leases in future years are:

	31 March 2022 £000	31 March 2023 £000
Not later than one year	145	96
Later than one year and not later than five years	273	231
Later than five years	349	345
	767	672

7. Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

	31 March 2022 £000	31 March 2023 £000
Bank Current Accounts	4,519	3,973
Money Market Funds	8,502	4,662
Short-Term Deposits	1,002	1,023
Cash and Cash Equivalents Current Assets	14,023	9,658
Bank Overdraft	0	0
Total Cash and Cash Equivalents	14,023	9,658

8. Debtors

An analysis of the bodies and individuals owing money to the Council is as below:

	31 March 2022 £000	31 March 2023 £000
Central Government bodies	529	207
Other Local Authorities	1,177	536
Other entities and individuals	3,178	3,693
LESS Impairment Allowances	(806)	(1,053)
Total Short Term Debtors	4,078	3,383

An analysis of the impairment allowances by class of debtor being:

	31 March 2022 £000	31 March 2023 £000
Non Domestic Rates Payers	(121)	(175)
Community Charge Payers	(49)	(49)
Council Tax Payers	(199)	(263)
Housing Benefits	(402)	(542)
General Fund Services	(35)	(24)
Total Impairment Allowances	(806)	(1,053)

Long Term Debtors

Debtors due over a period of longer than twelve months are classified as long-term debtors on the balance sheet. At 31st March 2023, these consist of the £10million Capital Loan – Service Investment (Housing) to Your Housing Limited; and some small local loans totalling £5,000.

The purpose of the £10million loan to Your Housing Limited is to support the maintenance of and provision of affordable housing within the Staffordshire Moorlands District. The loan has a maturity period of 10 years, repayable in February 2032; and is charged interest at a fixed rate of 3.07% (made up of the Public Works Loan Board Fixed Maturity Standard Rate on the day of drawdown 2.27% plus a premium of 0.80%), and is payable semi-annually. Under the Financial Covenants of the agreement, the value of the loan is secured fully against the borrower's Charged Properties and the Council is assured that the ratio of EBITDA (Earnings before interest, taxes, depreciated and amortisation) to Net Interest Payable in the borrower's accounts in respect of each financial year is not less than 1.1:1. Balances at the end of the year were as follows:

	31 March 2022 £000	31 March 2023 £000
Capital Loan (Service Investment Housing) to Your Housing Limited	10,048	10,047
Local Loans	5	5
Long Term Debtors	10,053	10,052

9. Creditors

An analysis of the bodies and individuals to whom the Council owes money is as below:

	31 March 2022 £000	31 March 2023 £000
Central Government bodies	(10,752)	(2,315)
Other Local Authorities	(2,792)	(2,075)
Other entities and individuals	(2,544)	(2,251)
Short Term Creditors	(16,088)	(6,641)

10. Provisions

A Provision is made based on the best estimate of the potential liability arising from future backdated changes to the NNDR rating list, including appeals against rateable values lodged with the Valuation Office Agency. The liability is shared with all Preceptors in the same proportions as retained Business Rates (50% central government, 40% billing Authority (the Council), 9% Staffordshire County Council, 1% Staffordshire Fire Authority).

NNDR Appeals Provision (Billing Authority Share)	31-Mar 22 £'000	31-Mar 23 £'000
Provision Brought Forward	(1,120)	(496)
Charges to provision during the year	744	134
(Increase)/ decrease in provision	(120)	(396)
NNDR Appeals Provision Carried Forward	(496)	(758)

11. Capital Grants Received in Advance

The Council has received several grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the grantor:

2021/22		2022/23
£000		£000
(130)	Balance at 1 April	(444)
	<u>Grants Received in year</u>	0
	S106 Planning obligations	(259)

The Council's Revenue Reserves are held as a contingency; are earmarked for specific purposes; or are as a result of 'ring fencing'. A brief description of the reserves is given below:

Reserve	Nature of Reserve
General Fund for Capital Schemes	Earmarked to provide funding for the Council's Capital Strategy
Business Rates Pool (S31) Earmarked	Where central government compensates local authorities for the cost of business rates reliefs, including those to the retail, hospitality and leisure industry, the grant to local authorities is recorded in year in the general fund, whereas the relief awarded impacts on the collection fund deficit to be distributed in future year where reliefs were not anticipating at the point of budget setting. In this situation grant funds are put aside from the general fund at the end of the year to be drawn down in future years to offset the impact of the collection fund deficit distribution
Covid-19 Business Support	Balance of unused Discretionary Grant funding
General Fund (Contingency)	Both as a contingency and to temporarily hold balances to be fed back into the short term budgetary process
Insurance Fund	To meet the cost of any residual MMI liabilities (see Note 14) ; to meet the costs of claims which fall below a minimum claim level or for a peril that is uninsured; to fund risk management (RM) activity (per the Council's Risk Management Strategy)
Unused Third Party Funds	These are funds (grants and contributions) from third parties which are unused at the year end but will be used for specific purposes. The key issue is that in the main they will be used in specific pre-ordained areas
Other (earmarked)	<p>These are revenue reserves established on a short term basis to provide funds for Council initiatives in the following areas:</p> <ul style="list-style-type: none"> support the districts bids for Central Government Levelling up Bids supporting future leisure development and provision support economic regeneration business rates contingency to support future new vehicles as the fleet ages funds to support the Council with the impact of COVID 19 and delivery of the recovery programme to cover costs associated with the review of the Ascent Housing LLP in partnership with Your Housing to cover costs associated with tree safety to dampen impact of fuel price variations or short term vehicle hire against potential planning appeal costs implementation of the IT strategy to cover costs associated with the Corporate Plan local development framework and the implementation of the local plan to support community funding to support partner organisations in financial difficulty support with the delivery of climate change related projects to support with costs associated with Organisational Development and the HR process to enable the efficiency programme to be delivered to help meet inflationary pressures to spread the costs of elections over a full term

13. Unusable Reserves

The total unusable reserves included on the balance sheet are shown in the table below:

31 March 2022 £000		Note	31 March 2023 £000
13,656	Revaluation Reserve	13a	17,558
22,055	Capital Adjustment Account	13b	21,298
(29,465)	Pensions Reserve	13c	(7,357)
(574)	Collection Fund Adjustment Account	13d	(368)
(159)	Accumulated Absences Account		(113)
5,513	Total Unusable Reserves		31,018

13a. Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment and Intangible Assets. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost,
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2021/22 £000	Revaluation Reserve		2022/23 £000
12,237	Balance at 1 April		13,656
2,357	Upward revaluations of assets	4,690	
(339)	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	(186)	
2,018	Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services		4,504
(599)	Difference between fair value depreciation and historical cost depreciation	(602)	
(599)	Amount written off to the Capital Adjustment Account		(602)
13,656	Balance at 31 March		17,558

13b. Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert current value figures to an historic cost basis).

The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

2021/22 £000	Capital Adjustment Account	2022/23 £000
21,597	Balance at 1 April	22,055
	<i>Reversal of items relating to capital expenditure debited or credited to the CIES</i>	
(1,453)	• Charges for depreciation of non current assets	(1,609)
(354)	• Impairment Revaluation Losses	(33)
(468)	• Impairment Debenture	0
102	• Impairment written back revaluation gain	0
(31)	• Amortisation of intangible assets	(39)
(1,273)	• Revenue expenditure funded from capital under statute	(1,017)
(499)	• Derecognition of non current assets part of the gain/loss	(34)
(17,280)	• Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	0
(21,256)		(2,732)
599	Adjusting amounts written out of the Revaluation Reserve	602
(20,657)	Net written out amount of the cost of non-current assets consumed in the year	(2,130)
	<i>Capital financing applied in the year:</i>	
17,222	• Use of capital Receipts Reserve to finance new capital expenditure	25
1,137	• Capital grants and contributions credited to the CIES that have been applied to capital financing	924
3	• Applications of grants to capital financing from the Capital Grant Unapplied Account	1
86	• Statutory provision for the financing of capital investment charged	211
2,415	• Use of Earmarked Capital Reserve to finance new capital expenditure	65
20,863		1,226
252	Movements in the market value of Investment Properties debited or credited to the CIES	147
22,055	Balance at 31 March	21,298

13c. Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs.

However, statutory arrangements require any benefits earned to be financed as the employer makes contributions to the pension fund (or eventually pays any pensions for which it is directly responsible). The balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2021/22 £000	Pension Reserve	2022/23 £000
(42,796)	Balance at 1 April	(29,465)
14,565	Remeasurement of the net defined benefit liability	22,974
(3,199)	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the CIES	(2,902)
1,965	Employer's pensions contributions and direct payments to pensioners payable in the year	2,036
(29,465)	Balance at 31 March	(7,357)

13d. Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax and Non-Domestic Rates income in the Comprehensive Income and Expenditure Statement as it falls due from Council Tax payers and Business Rates payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2021/22 £000	Collection Fund Adjustment Account	2022/23 £000
(3,974)	Balance at 1 April	(574)
3,400	Amount by which council tax and business rates income credited to the CIES is different from council tax and business rates income calculated for the year in accordance with statutory requirements	206
(574)	Balance at 31 March	(368)

14. Financial Instruments

14a. Categories of Financial Instruments

Under accounting requirements, the carrying value of the financial instruments value is shown in the balance sheet which includes the principal amounts borrowed or lent and accrued interest. The Council's assets and liabilities are classified under fair value through profit and loss and amortised cost and are separated between current and non-current assets and liabilities where the payments or receipts are due within or beyond one year.

	Non-Current		Current		Total	
	31 March 2022 £000	31 March 2023 £000	31 March 2022 £000	31 March 2023 £000	31 March 2022 £000	31 March 2023 £000
Financial Assets carried at Fair Value through Profit and Loss						
Money Market Funds	0	0	8,501	4,662	8,501	4,662
Financial Assets carried at Amortised Cost						
Cash Deposits	0	0	5,522	4,996	5,522	4,996
Fixed term deposits	0	0	14,544	7,465	14,544	7,465
Debtors						
Trade* & Long Term Debtors	10,053	10,052	2,556	2,657	12,609	12,709
Total Financial Assets	10,053	10,052	31,123	19,780	41,176	29,832

Financial Liabilities carried at Amortised Cost	Non-Current		Current		Total	
	31 March 2022	31 March 2023	31 March 2022	31 March 2023	31 March 2022	31 March 2023
	£000	£000	£000	£000	£000	£000
Borrowings						
Fixed term Borrowing	(7,604)	(4,604)	(5,065)	(3,038)	(12,669)	(7,642)
Bank Overdraft	0	0	0	0	0	0
Creditors						
Trade Creditors*	0	0	(2,498)	(2,147)	(2,498)	(2,147)
Sub Total	(7,604)	(4,604)	(7,563)	(5,185)	(15,167)	(9,789)
Other Liabilities	0	(48)	0	(4)	0	(52)
Total	(7,604)	(4,652)	(7,563)	(5,189)	(15,167)	(9,841)

* Trade Debtors / Creditors vary from the Balance Sheet values as statutory debtors of £1.780m (£2.329m 21/22), the bad debt provision of £1.053m (£0.807m 21/22); and statutory creditors of £4.490m (£13.589m 21/22) are excluded.

Reclassification

There has been no reclassification of financial assets or liabilities during the year.

Fair Value

Basis for recurring fair value measurements:

- Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Authority can access at the measurement date.
- Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs: unobservable inputs for the asset or liability.

Fair Value of Financial Assets

Some of the Council's financial assets are measured at fair value on a recurring basis and are described in the following table, including the valuation techniques used to measure them:

Financial Assets carried at Fair Value through Profit and Loss	Fair Value Hierarchy	31 March 2022		31 March 2023	
		Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
Money Market Funds	Level 2	8,501	8,501	4,662	4,662

There were no transfers between input levels 1 and 2 during the year and there has been no change in the valuation technique used during the year. Because of the instant access and low volatility net asset value nature of the money market funds, fair value equals carrying value.

Fair Value of Assets and Liabilities that are not measured at Fair Value (but for which Fair Value disclosures are required)

Except for the financial assets carried at fair value (described in the table above), all other financial assets and liabilities represented by amortised cost and long-term debtors and creditors are carried in the balance sheet at amortised cost. Their fair values can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

- Where an instrument has a maturity of less than 12 months or is a trade or other debtor or creditor the fair value is taken to be the carrying amount or the billed amount.
- For loans from the Public Works Loan Board (PWLB), new borrowing rates from the PWLB have been applied to provide the fair value under PWLB redemption procedures.
- For other market debt and investments, prevailing market rates have been used to provide the fair value, i.e. the rate available for an instrument with the same terms from a comparable lender.
- No early repayment or impairment is recognised.
- For the valuation and disclosure of fair values of financial assets and liabilities the rates quoted were obtained from Link Asset Services (the Council's Advisors) using Level 2 Valuations.
- There has been no change in the valuation technique used during the year for financial instruments.
- There were no transfers between input levels 1 and 2 during the year.

Financial Assets carried at Amortised Cost	Fair Value Hierarchy	31 March 2022	
		Carrying Amount £000	Fair Value £000
Cash deposits	Level 2		
Fixed term deposits excluding CDs			
Fixed term deposits CDs	Level 2		
Trade Debtors			
Long Term Debtors			
Total			

Financial Liabilities held at Amortised Cost	Fair Value Hierarchy	31 March 2022		31 March 2023	
		Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
Fixed Term Borrowing	Level 2	(12,669)	(12,494)	(7,642)	(6,899)
Bank Overdraft		0	0	0	0
Trade Creditors		(2,498)	(2,498)	(2,147)	(2,147)
Other Liabilities		0	0	(52)	(52)
Total		(15,167)	(14,992)	(9,841)	(9,098)

The fair value of the liabilities is £0.743million less than the carrying amount because the Council's portfolio of loans includes two fixed rate loans where the interest rate payable is less than the rates available for similar loans at the balance sheet date. This shows a notional future gain (based on economic conditions at 31 March 2023) arising from a commitment to pay interest to lenders below current market rates.

The Council has a continuing ability to borrow at concessionary rates from the Public Works Loan Board (PWLB) rather than from markets. The fair value of the PWLB loans in comparison to the carrying value on the balance sheet measures the estimated economic effect of the terms that would be offered for market transactions undertaken at the balance sheet date compared with the existing terms agreed with the PWLB. The difference between the fair value and the carrying amount represents the notional additional interest that the Council will pay over the remaining terms of the loans against what would be paid if the loans were at prevailing rates. The fair value is measured using the new borrowing rates available from the PWLB. On this basis, the fair value of the PWLB loans with a carrying amount of £4.6million would be £3.9million. However, if the Council were to seek to avoid the notional projected loss by repaying the loans to the PWLB, the PWLB would raise a penalty charge for early redemption in addition to charging a premium for the additional interest that would not be paid. The exit price for the PWLB loans including the penalty charge would be £4.2million.

14b. Income, Expense, Gains and Losses

The total gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments are illustrated below. The figures include the interest receivable and payable on investments and borrowings. Because of the instant access and low volatility net asset value nature of the money market funds measured at fair value through profit and loss, there is zero gain or loss to be recognised in the comprehensive income and expenditure statement aside from the interest receivable.

	2021/22		2022/23	
	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000
Financial assets measured at fair value through profit and loss:				
Interest receivable and similar income	3	0	157	0
Financial assets measured at amortised cost:				
Material soft loan increase in discounted amount	1,963	0	0	0
Interest receivable and similar income	512	0	607	0
Financial liabilities measured at amortised cost:				
Interest payable and similar charges	(103)	0	(147)	0
Total net gains/ (losses)	2,375	0	617	0

14c. Risk Analysis and Expected Credit Loss

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management within the Council is overseen by the Audit & Accounts Committee in accordance with the Risk Management Strategy approved by Cabinet.

The Council's treasury team implements the approved Treasury Management Strategy and maintains written Treasury Management Practices (TMP's) covering specific areas, such as interest rate risk, credit risk and the investment of surplus cash. The Council also has a Treasury Management Policy in place, which defines the policies and objectives of its treasury activities. The policy statement refers to the identification, monitoring and control of risk as the prime criteria by which the effectiveness of the Council's treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on the risk implications for the Council. Exposure to financial risks is discussed in more detail below:

- **Credit risk** – the possibility that other parties might fail to pay amounts due to the Council.
- **Liquidity risk** – the possibility that the Council might not have funds available to meet its commitments to make payments.
- **Refinancing risk** – the possibility that the Council might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- **Market risk** – the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers. The risk is minimised through the Annual Investment Strategy.

Credit Risk Management Practices

The Council's credit risk management practices are set out throughout the Treasury Management Strategy Statement (TMSS) including the Annual Investment Strategy. With particular regard to determining whether the credit risk of the financial instruments has increased significantly since recognition. The TMSS requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with the Fitch, Moody's and Standard & Poor's Credit Ratings Services. The TMSS also considers maximum amounts and time limits with a financial institution located in each category.

The Council uses the creditworthiness service provided by Link Asset Services. This service uses a sophisticated modelling approach with credit ratings from all three rating agencies, Fitch, Moody's and Standard and Poor's, forming the core element. However, it does not solely rely on the current credit ratings of counterparties but also uses the following as overlays: credit watches and outlooks from credit rating agencies, CDS spreads to give early warning of likely changes in credit ratings, and sovereign ratings to select counterparties from countries with appropriate creditworthiness. The full TMSS was approved by Full Council in February 2022.

Customers for goods and services are assessed, taking into account their financial position, past experience and other factors, with individual credit limits being set in accordance with internal ratings in accordance with parameters set by the Council.

The Council's maximum exposure to credit risk in relation to investments in financial institutions of £17.1million cannot be assessed generally, as the risk of any institution failing to make repayments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all the Council's deposits, but there was no evidence at 31st March 2023 that this was likely to crystallise.

Amounts Arising from Expected Credit Losses (ECL)

Investments at Amortised Cost	ECL Test	ECL Category	ECL Value at 31 Mar 2022 £000	ECL Value at 31 Mar 2023 £000	Increase/ (Decrease) in ECL
Investments at Fair Value through profit and loss					
Money Market Funds	Historic Risk of Default	12 month Expected Credit losses	0	0	0
Trade Debtors: non statutory bad debt provision	Simplified Model	Lifetime Expected Credit Losses - simplified approach	438	566	128
<u>Deposit with banks/financial institutions</u>					
Cash/Bank Fixed Deposit Notice Accounts	Historic Risk of Default	12mth Expected Credit Losses	0.002409	0.001136	0.001273
<u>Loans</u>					
Capital Service Loan Housing	Assessment of credit risk	12m Expected Credit losses	0	0	0
Parish Council Loan	Assessment of credit risk	12m Expected Credit losses	0	0	0
			438	566	128

Liquidity Risk

Investments

The Council manages its liquidity position through the risk management procedures including the setting and approval of prudential indicators and the approval of the TMSS as well as through a comprehensive cash flow management system, as required by the CIPFA Treasury Management Code of Practice. This seeks to ensure that cash is available when needed. The Council has ready access to borrowings from the money markets to cover any day to day cash flow need, and the Public Works Loans Board (PWLB) and money markets for longer-term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant

risk that it will be unable to raise finance to meet its commitments under financial instruments.

Refinancing & Maturity Risk

The Council maintains a debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to managing the exposure of replacing financial instruments as they mature. The risk relates to both the maturing of longer term financial liabilities and longer term financial assets. The maturity structure of fixed term financial assets at the start date and at the balance sheet date of these instruments is shown in the table below:

31st March 2022 Carrying amount £000	Average Interest Rate	Type	31st March 2023 Carrying amount £000	Average Interest Rate
14,500	0.72%	Fixed Term Investments & Notice Accounts	7,400	4.16%
		<u>Original maturity profile</u>		
14,500	0.72%	Less than 365 days	7,400	4.16%
		<u>Remaining maturity profile</u>		
14,500	0.72%	Less than 365 days	7,400	4.16%

The Council has limits in place to ensure that a significant proportion of its borrowing does not mature for repayment at any one time in the future to reduce the financial impact of re-borrowing at a time of unfavourable interest rates. The maturity structure of financial liabilities at the start date and at the balance sheet date of these instruments is shown in the table below.

31st March 2022 Carrying amount £000	Average Interest Rate	Type	31st March 2023 Carrying amount £000	Average Interest Rate
12,604	1.40%	Local Authority Fixed Term Borrowing	7,604	1.75%
		<u>Original maturity profile</u>		
0	0.00%	Less than 1 Year	0	
8,000	1.02%	Between 1 and 5 Years	3,000	1.25%
4,604	2.07%	Between 5 and 10 Years	4,604	2.07%
		<u>Remaining maturity profile</u>		
5,000	0.88%	Less than 1 Year	3,000	1.25%
3,000	1.25%	Between 1 and 5 Years	0	0.00%
4,604	2.07%	Between 5 and 10 Years	4,604	2.07%

Market Risk

The Council is exposed to interest rate movements on its borrowing and investments. Movements in interest rates can have a complex impact on the Council. For example, a rise in interest rates would have the following effect:

- Investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement would increase.
- Investment at fixed rates – the fair value of the assets will fall (no impact on revenue balances or the balance sheet as all investments carried at carrying value).
- Borrowing at fixed rates – the fair value of the borrowing will fall (no impact on revenue balances or the balance sheet as held at amortised cost).

The Council carries out its borrowing and investment function within the parameters set in its Treasury Management Strategy, which establishes interest rate exposure. The Council uses the services of a Treasury Advisor, who issue regular interest rate forecasts to aid decision making when placing investments and setting the annual investment income budget for the following year. Forecasts are updated and reported to the Audit & Accounts Committee, which allows any significant changes in interest rates to be reflected in current budget projections. At 31 March 2023, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

	£000
Increase in interest receivable on variable rate investments	(146)
Impact on Other Comprehensive Income and Expenditure	(146)
Increase in Fair Value of Fixed Rate Borrowing	278

The impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Price Risk

The Council does not invest in equity shares and is therefore not exposed to losses arising from movements in the prices of shares.

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies and thus no exposure to loss arising from movements in exchange rates.

15. Contingent Liabilities and Assets

The disclosures made here are based on the IAS37 definitions of contingent assets and liabilities quoted in the Code:

- a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the organisation's control; or
- a present obligation that arises from past events but is not recognised because:
 - it is not probable that a transfer of economic benefits will be required to settle the obligation, or
 - the amount of the obligation cannot be measured with sufficient reliability.

Contingent Liabilities

Municipal Mutual Insurance – Scheme of Arrangement

Prior to 1992 the Council was insured by Municipal Mutual Insurance (MMI). When MMI ceased accepting new business in 1992/93 the Council was entered into a Scheme of Arrangement (SOA) under Section 425 of the Companies Act 1985. The SOA was triggered on 13 November 2012 following the conclusion of long running legal proceedings. From that date Ernst & Young LLP became responsible for the management of the company's business, affairs and assets. An initial levy of 15% (£9,292) was paid in 2013/14. The levy was reviewed in 2015 with the result that a further payment equivalent to 10% (£8,059) was paid in 2016/17. An annual review of the levy rate is required under the terms of the Scheme and this could lead to the rate being further amended in future, either up or down.

Under the terms of the SOA, the Council now must meet 25% of any new insurance settlements, relating to its claims, made by MMI. An earmarked Insurance reserve, with a balance of £338,580, is available to mitigate the financial pressure created by the MMI levy and any other uninsured losses, which might occur in the future.

At 31 March 2023, the Council's amount subject to levy under the SOA stood at £90,747, unchanged from 2021/22.

Contingent Assets

There are no contingent assets.

16. Events after the Balance Sheet Date

The unaudited Statement of Accounts were authorised for issue on 11th August 2023, by Martin Owen, Executive Director (Chief Finance Officer).

Where events taking place before this date provided information about conditions existing at 31 March 2023, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information. Events after this date are not reflected in the financial statements or notes. Enquiries with the Council's Senior Management Team have confirmed that there are no other outstanding legal issues, insurance claims or ombudsman complaints, which are likely to have a significant impact on these financial statements.

Inflationary pressures

The impact of the current economic climate of high inflation and volatile and increasing interest rates on the Council's financial situation continues to be assessed and is incorporated into the Medium Term Financial Plan accordingly. The ongoing impact is emerging and cannot be fully quantified at this point. The Council has concluded that this does not require any adjustment of the 2022/23 Statements.

17. Cash Flow Statement

This note provides further analysis of certain figures used in the Cash Flow Statement:

17a. Net cash flows from operating activities

2021/22		2022/23
£000		£000
191	Net Surplus or (Deficit) on the Provision of Services	(1,373)
	Adjust net surplus or deficit on the provision of services for non cash movements	
1,453	Depreciation	1,609
810	Impairment and downward valuations	67
31	Amortisation	39
468	Material Impairment losses on Investments debited to financing and investment income in year	0
	Reduction in fair value of Soft Loans (non Subsidiary) made in the year	
6	Increase/ (Decrease) in Interest Creditors	(27)
555	Increase/ (Decrease) in Creditors	(9,183)
(75)	(Increase) /Decrease in Interest and Dividend Debtors	(90)
2,005	(Increase) /Decrease in Debtors	155
1	(Increase) /Decrease in Inventories	0
2,210	Pension Liability	1,921
(623)	Contributions to/ (from) Provisions	262
(252)	Movement in Investment Property Values	(147)
6,589		(5,394)
	Adjust for items included in the net surplus or deficit on the provision of services that are investing or financing activities	
(1,782)	Capital Grants credited to surplus or deficit on the provision of services	(1,926)
4,900	Proceeds from the sale of short and long term investments	12,100
0	Proceeds from the sale of property plant and equipment, investment property and intangible assets	(21)
3,118		10,153
9,898	Net Cash Flows from Operating Activities	3,386

17b. Operating Activities (relating to Interest)

2021/22		2022/23
£000		£000
2,403	Interest received	675
(371)	Interest paid	(174)

17c. Investing Activities

2021/22		2022/23
£000		£000
(1,482)	Purchase of property, plant and equipment, investment property and intangible assets	(794)
(14,500)	Purchase of short-term and long-term investments	(5,000)
(10,000)	Other payments for investing activities	0
0	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	21
19,320	Other receipts from investing activities	2,746
(6,662)	Net cash flows from investing activities	(3,027)

17d. Financing Activities

2021/22		2022/23
£000		£000
4,605	Cash receipts or short and long term borrowing	0
1,230	Billing Authorities - Council Tax & NNDR Adjustment	276
0	Cash payments for the reduction of the outstanding liabilities relating to Finance leases	0
(7,000)	Repayments of short and long term borrowing	(5,000)
(1,165)	Net cash flows from financing activities	(4,724)

Notes to the Collection Fund Account

1. Non-domestic Rates (NDR)

Central Government sets the Non-Domestic Rate Multiplier and, subject to the effects of transitional arrangements, local businesses pay rates calculated by multiplying their Rateable Value by that amount, adjusted by any applicable reliefs or exemptions.

2021/22		2022/23
£56,557,445	Total Non-Domestic Rateable Value at Year End	£56,531,870
51.2p	National Non-Domestic Rate Multiplier	51.2p

2. Council Tax Base

Council Tax income derives from charges raised according to the value of residential properties that have been classified into 8 bands, based on valuations as at 1 April 1991. Individual charges are calculated by estimating the amount of income required from the Collection Fund by County Council, Office of the Police & Crime Commissioner, Fire & Rescue Authority, and this Council, and dividing this total figure by the Council Tax base. The Council Tax base for the year was calculated as follows:

Valuation Band	Proportion of Band D Charge (ninths)	Number of Dwellings in Valuation List		Number of Band D Equivalent Dwellings	
		2021/22	2022/23	2021/22	2022/23
Band A	6	9,634	9,625	4,305	4,300
Band B	7	10,608	10,643	6,690	6,748
Band C	8	10,699	10,758	8,271	8,328
Band D	9	6,203	6,248	5,617	5,680
Band E	11	4,373	4,412	4,940	4,983
Band F	13	1,976	2,004	2,638	2,678
Band G	15	775	775	1,200	1,195
Band H	18	31	33	37	39
Total		44,299	44,498	33,698	33,951
Deduction for non-collection				(438)	(441)
Additional properties and adjustments during the year				0	0
Council Tax Base (Band D equivalent)				33,260	33,510

3. The Fund Balance

Prior to the end of each year, the year-end surplus or deficit on the Collection Fund for both Council Tax and Business Rates is estimated in order that it can be distributed amongst the billing and precepting authorities along with the precepts for the coming year. The declaration must be made on 15 January each year for Council Tax and 31 January for Business Rates. The estimated surplus/deficit declared for the 2021/22 year was a £545,000 surplus for Council Tax and a deficit of £2,266,000 for Business Rates, both of which have been distributed in 2022/23.

For Council Tax, the estimated surplus was apportioned amongst the preceptors in proportion to the value of their respective demands and precepts made on the Collection Fund for 2021/22. For Business Rates, the estimated deficit was apportioned using the prescribed proportions of 50% (Central Government), 40% (Billing Authority, this Council), 9% (County Council), and 1% (Fire Authority).

2021/22 Council Tax	2021/22 Business Rates		2022/23 Council Tax Precept	2022/23 Business Rates Precept	Distribution of Council Tax Estimated Surplus / (Deficit)	Distribution of Business Rates Estimated Surplus / (Deficit)	2022/23 Council Tax Total	2022/23 Business Rates Total
£000	£000		£000	£000	£000	£000	£000	£000
		Precepting Authorities						
	4,710	Central Government		9,724		(1,133)		8,591
44,800	1,209	Staffordshire County Council	46,958	1,750	392	(204)	47,350	1,546
7,856		Staffordshire Police Authority	8,330		69		8,399	
2,593	100	Staffordshire Fire & Rescue Authority	2,693	194	22	(23)	2,715	171
55,249	6,019	Precepting Authorities	57,981	11,668	483	(1,360)	58,464	10,308
5,607	4,014	Staffordshire Moorlands District Council	5,882	7,780	62	(906)	5,944	6,874
290		Cheadle Town Council	310				310	
370		Biddulph Town Council	380				380	
181		Leek Town Council	173				173	
544		Parish Councils	614				614	
6,992	4,014		7,359	7,780	62	(906)	7,421	6,874
62,241	10,033	Total	65,340	19,448	545	(2,266)	65,885	17,182

During 2022/23 the Collection Fund account recorded an in-year deficit of £421,000 for Council Tax and a surplus of £628,000 for Business Rates. The balance at 31 March 2023 has been disaggregated for the purpose of these Accounts to attribute relevant amounts to the Precepting Authorities' debtor and creditor accounts and those of the Billing Authority (the Council) as follows:

2021/22		2022/23		2022/23	
Council Tax Cumulative Surplus/ (Deficit)	Business Rates Cumulative Surplus/ (Deficit)	Council Tax In Year Surplus/ (Deficit)	Business Rates In Year Surplus/ (Deficit)	Council Tax Cumulative Surplus/ (Deficit)	Business Rates Cumulative Surplus/ (Deficit)
£000	£000	£000	£000	£000	£000
	(806)		314		(492)
72	(647)		251	27	(396)
455	(145)	(45)	57	150	(88)
80		(53)		27	
26	(16)	(18)	6	8	(10)
633	(1,614)	Balance at 31 March	(421)	212	(986)

The Council Tax cumulative surplus amounts attributable to the County Council, Office of the Police & Crime Commissioner and Fire & Rescue Authority above are shown as creditors in the 2022/23 Balance Sheet; the Business Rates cumulative deficit amounts attributable to Central Government, the County Council and Fire & Rescue Authority above are shown as debtors in the 2022/23 Balance Sheet.

4. Council Tax & Non-Domestic Rates Income reported on the Comprehensive Income & Expenditure Statement

The Comprehensive Income & Expenditure Statement includes income from Council Tax & Non-Domestic Rates in "Taxation and Non-Specific Grant Income & Expenditure"; this is further detailed in Note 3c in the Notes to the Financial Statements. A reconciliation between the income reported in the Collection Fund Statement and Notes and that shown in Note 3c follows:

2021/22 Council Tax	2021/22 Business Rates		2022/23 Council Tax	2022/23 Business Rates
£000	£000		£000	£000
(7,130)	(1,425)	Note 3c Taxation and Non-Specific Grant Council Tax Income	(7,376)	(1,655)
		Non-Domestic Rates Retention		
(7,065)	(8,003)	SMDC Precept	(7,359)	(7,780)
72	3,989	SMDC share of (Surplus)/ Deficit Distributed in the Year	(62)	906
(137)	(3,263)	SMDC share of actual (Surplus)/ Deficit recorded at 31st March	45	(251)
	446	Contribution to Business Rates Pool*		64
	5,406	NDR Tariff**		5,406
(7,130)	(1,425)	Total	(7,376)	(1,655)
0	0	Variance	0	0

* Under the Business Rates Retention system, the NDR levy is a charge on a proportion of growth above the Business Rates Funding Baseline in the year. This is a charge to the General Fund and as such does not feature in the Collection Fund Statement. As a member of a Business Rates Pool the Council does not have to pay this levy to Central Government, but instead pays a contribution to the Staffordshire Business Rates Pool. This figure includes a refund for overpayments of contributions to the pool for previous years.

** The NDR Tariff is the difference between the NDR Baseline and the Funding Baseline, which are set by Central Government as part of the Budget. It is paid to Central Government during the year out of the General Fund and as such does not feature in the Collection Fund Statement.

5. Community Charge

Outstanding arrears in respect of Community Charge are still being collected and these amounts are credited to the Council's General Fund directly.

Accounting Policies

1. General Principles

The Statement of Accounts summarise the Council's transactions for a financial year and the position at the financial year-end. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015. Those Regulations require the Statement of Accounts to be prepared in accordance with proper accounting practices.

These practices primarily comprise CIPFA's Code of Practice on Local Authority Accounting in the United Kingdom, applicable to the financial year, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

2. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- The resources available are concentrated on identifying and accruing individual transactions of £10,000 and above.
- An Accumulated Absences creditor balance is maintained to reflect the value of time owed to employees for accrued holidays, TOIL (time off in lieu) and flexitime. This balance is based on an historic value subject to annual review and amendment where there have been significant changes in staff numbers or working patterns.

3. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial instruments repayable without penalty on notice of not more than 24 hours.

Cash equivalents are highly liquid investments that mature in no more than three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

4. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance.

Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

5. Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are charged an accounting estimate of the cost of holding assets during the year. This comprises:

- depreciation attributable to the assets used by the relevant service;
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off;
- amortisation of intangible assets attributable to the service.

The Authority is not required to raise Council Tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Authority in accordance with statutory guidance.

Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance [Minimum Revenue Provision (MRP)], by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

6. Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as salaries, paid annual leave and paid sick

leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement to the accumulated absences account so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service segment or, where applicable, to a corporate service segment at the earlier of when the Authority can no longer withdraw the offer of those benefits or when the Authority recognises costs for restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-Employment Benefits

Employees of the Authority are members of The Local Government Pensions Scheme, administered by Staffordshire County Council.

The scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Authority.

The Local Government Pension Scheme

The Staffordshire Pension Fund is part of the Local Government Pension Scheme, and is accounted for as a defined benefit scheme.

- The liabilities of the Staffordshire Pension Fund attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc. and projections of future earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate determined by the actuary (based on the indicative rate of return on high quality corporate bonds).

- The assets of the Staffordshire Pension Fund attributable to the Authority are included in the Balance Sheet at fair value:
 - quoted securities – current bid price
 - unquoted securities – professional estimate
 - unitised securities – current bid price
 - property – market value.

The change in the net pensions liability is analysed into the following components:

- Service cost comprising:
 - Current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
 - Past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
 - Net interest on the net defined benefit liability (asset) – i.e. the net interest expense for the Authority – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
- Remeasurements comprising:
 - The return on plan assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
 - Actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
 - Contributions paid to the Staffordshire Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards.

In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits based on cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Authority also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise because of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

7. Events after the Reporting Period

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events.
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

8. Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, for interest payable, are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Authority has a policy of spreading the gain or loss over the term that was

remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- amortised cost
- fair value through profit or loss (FVPL)

The Council's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cashflows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective interest rate for the instrument. For most of the financial assets held by the Authority, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest), and interest credited to the CIES is the amount receivable for the year in the loan agreement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Expected Credit Loss Model

The Authority recognises expected credit losses on all its financial assets held at amortised cost, on either of a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Authority.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Finance Assets Measured at Fair Value through Profit or Loss (FVPL)

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

Fair value measurement of financial assets

Fair value of an asset is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurements of the Council's financial assets are based on the following techniques:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the Authority can access at the measurement date
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly
- Level 3 inputs – unobservable inputs for the asset.

9. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Authority when there is reasonable assurance that:

- the Authority will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income and Expenditure (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used

to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Where the Council is acting as the Agent of a third party, by distributing grants on their behalf, those transactions are not reflected in the Comprehensive Income and Expenditure Statement. Any debtor or creditor balance, in respect of cash received or expenditure incurred, is reported in the Balance Sheet and included in financing activities in the Cash Flow Statement.

10. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Authority as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Authority.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Authority will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Authority can be determined by reference to an active market. In practice, no intangible asset held by the Authority meets this criterion, and they are therefore carried at cost less accumulated depreciation and any accumulated impairment loss. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

11. Interests in Companies and Other Entities

The Authority has a material interest in Alliance Environment Services Ltd (AES) with High Peak Borough Council and Ansa; and in Alliance Norse Ltd with High Peak Borough Council and Norse Commercial Services Ltd. These arrangements are assessed as Joint Operations therefore there is no requirement to prepare group accounts. The Council does not have interest in any other any company or entity that has the nature of a subsidiary, associate or joint venture, so has no requirement to prepare group accounts.

12. Joint Operations

Joint operations are arrangements where the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement. The activities undertaken by the Authority in conjunction with other joint operators involve the use of the assets and resources of those joint operators. In relation to its interest in a joint operation, the Authority as a joint operator recognises:

- its assets, including its share of any assets held jointly.
- its liabilities, including its share of any liabilities incurred jointly.
- its revenue from the sale of its share of the output arising from the joint operation.
- its share of the revenue from the sale of the output by the joint operation.
- its expenses, including its share of any expenses incurred jointly.

13. Inventories

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using the First In First Out [FIFO] costing formula.

14. Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, being the price that would be received to sell such an asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest and best use. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are

therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

15. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Authority as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability, and
- a finance charge – debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the assets' estimated useful life (where ownership of the asset does not transfer to the Authority at the end of the lease period).

The Authority is not required to raise Council Tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease; even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

The Authority as Lessor

Finance Leases

Where the Authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the balance sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the balance sheet (whether property, plant and equipment or assets held for sale) is written off to the other operating expenditure line in the comprehensive income and expenditure statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the comprehensive income and expenditure statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premiums received); and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against Council Tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases

Where the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

16. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Authority does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Authority). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Authority.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income and Expenditure line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction – depreciated historic cost.

- dwellings – current value, determined using the basis of existing use value for social housing (EUV-SH).
- surplus assets – the measurement base is fair value, estimated at highest and best use from a market participant's perspective.
- all other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Where non-property assets that have short useful lives or low values (or both), depreciated historic cost basis is used as a proxy for current value. Assets included in the Balance Sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year-end, but as a minimum every five years.

Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Surplus or Deficit on the Provision of Services where they arise from the reversal of a loss previously charged to a service

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the

relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- dwellings and other buildings – straight-line allocation over the useful life of the property as estimated by the valuer
- vehicles, plant, furniture and equipment – a percentage of the value of each class of assets in the Balance Sheet, as advised by a suitably qualified officer.
- It is not charged in the year of acquisition but a full year's depreciation is charged in the year of disposal.

Where a Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately (see Componentisation below).

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any losses previously recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as Held For Sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been

classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal.

Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. The balance of receipts remains within the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council Tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Componentisation

A formal Componentisation policy has been adopted in accordance with the requirements of International Reporting Standards effective from 2010/11. The policy applies to all categories of Property, Plant and Equipment which meet the following criteria:

- individual assets and groups of similar assets, whether held at historic cost or current cost, with a gross carrying value of £800,000 and above will be considered for the purposes of componentisation,
- items below this level will be disregarded as the impact upon the total cost of service is not considered material,
- assets that are above the £800,000 threshold will be 'componentised' where the cost of the component is significant in relation to the overall cost of the asset. A component will be deemed significant where it represents 20% of the total cost of the overall asset at the time of acquisition or construction and where the component element has a significantly different useful life and/or method of depreciation to the main asset.
- where assets comprise two or more components any change in overall valuation will not simply be applied to the overall asset but assigned to its component parts in accordance with any split provided by the valuer.

Derecognition

When a component is replaced or restored the old component should be "derecognised" (written off) to avoid double counting. Under the Code, derecognition is required to ensure the asset carrying values are not materially overstated. To this end the following principles will be applied when calculating derecognition values:

- General Fund Assets
 - the component does not need to have been separately identified under the above policy.
 - all spending on assets valued at over £800,000 will be considered for derecognition.
 - on assets valued at under £800,000, only capital spending greater than £160,000 (20%) will be considered for derecognition.
 - on all assets, capital spending lower than £160,000 will be treated as an enhancement without any derecognition unless it is determined that there would be no material increase in carrying value.
- Determining Derecognition Values
 - derecognition will be based on valuations of the replaced component provided by Property Services; or
 - where no valuations are readily available, replacement cost will be used, adjusted for appropriate levels of depreciation and impairment.

Note: all assets will be considered separately for an Impairment Review in accordance with the Code.

De Minimis

Where the gross value of a Property asset is £10,000 or less it is included on the Balance Sheet at its carrying value without further revaluation, depreciation or impairment. These assets are subjected to an annual internal review. Where this identifies the potential for a significant increase that would take carrying values above £10,000, a formal valuation will be triggered.

Where a Non-Property asset continues to be of economic value to the Authority but has been fully depreciated it will be recorded in the Balance Sheet at a carrying value of £0 irrespective of how many more useful years it is assessed to have.

17. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place on or before the Balance Sheet date:

- that gives the Authority a present obligation
- that probably requires settlement by a transfer of economic benefits or service potential, and
- where a reliable estimate can be made of the amount of the obligation.

If it is not clear whether an event has taken place on or before the Balance Sheet date, it is deemed to give rise to a present obligation if, taking account of all available evidence, it is more likely than not that a present obligation exists at the Balance Sheet date. The present obligation can be legal or constructive.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement when the Authority has an obligation, and are measured at the best estimate at the

Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

Estimated settlements are reviewed at the end of each financial year. Where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Authority settles the obligation.

When payments are eventually made, they are charged against the provision carried in the Balance Sheet.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

18. Reserves

Reserves equate to the residual value of the Council's assets after deducting all its liabilities. They are reported on the Balance Sheet under two categories:

Usable Reserves

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure.

Unusable Reserves

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, local taxation, retirement and employee benefits and do

not represent usable resources for the Authority. They are of two kinds:

- a) those that hold unrealised gains and losses. Arising from changes in Asset or Liability valuation, where gains/ losses will only be released once the Asset/ Liability is disposed of
- b) adjustment accounts that carry a balance reflecting the timing difference between income and expenditure as recognised under accounting standards and that required under statute.

These reserves, explained in the relevant policies and Statement notes, are Revaluation Reserve [(a) capital], Capital Adjustment Account [(b) capital], Pensions Reserve [(b) employees], Accumulated Absences Account (b), Collection Fund Adjustment Account (b).

19. Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Authority has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of Council Tax.

20. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from HMRC. VAT receivable is excluded from income.

21. Heritage Assets

Heritage Assets are assets with historical, artistic, scientific, technological, geophysical or environmental qualities held and maintained for their contribution to knowledge and culture.

The Council holds a range of Heritage Assets:

- Civic Regalia – comprises the various chains of office associated with the ceremonial functions of the Council and the office of Mayor (including deputies and consorts).
- Nicholson Collection – held on trust by the Council this collection is primarily on public display in the Nicholson Museum & Art Gallery within the Nicholson Institute in Leek.
- Civic Memorabilia – items, commemorative in nature, that have been donated to the Council.
- Legal Documents – a number of historical legal documents.
- Monuments, Memorials, Statues and Other Assets – the Council either owns or is custodian for a range of items (e.g. fountains, wells etc.) considered significant to the heritage of the district.

Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Council's accounting policies on property, plant and equipment. However, some of the measurement rules are relaxed in relation to Heritage Assets, as detailed below.

Both the Civic Regalia and Nicholson collections are held on the Balance Sheet at Insurance Value which is based on market value. It is considered that they have an indefinite life and therefore Depreciation is not charged. The Nicholson Collection is specifically maintained and preserved in its original condition.

In addition, both collections are annually reviewed in order to establish if carrying values remain current and if impairment is required.

For security reasons, the Council does not publicly reveal precise details of either its Civic Regalia or the Nicholson Collection.

Information on cost or value is not usually held on the remaining Heritage Assets and the Council considers that the cost of obtaining valuations tends not to be commensurate with the potential benefits to the users of the Statement of Accounts. Therefore these assets are rarely included on the face of the Balance Sheet. However, an annual review of such assets is undertaken to ensure that this assumption remains valid.

22. Council Tax and Non-Domestic Rates

Billing authorities act as agents, collecting Council Tax and Non-Domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting Council Tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of Council Tax and NDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of Council Tax and NDR collected could be less or more than predicted.

Accounting for Council Tax and NDR

The Council Tax and NDR income included in the Comprehensive Income and Expenditure Statement is the Council's share of accrued income for the year. However, regulations determine the amount of Council Tax and NDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement (CIES) and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet included the Council's share of the end of year balances in respect of Council Tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood arising from a past event that payments due under the statutory arrangements will not be made, the asset is written down and a charge made to the taxation and non-specific grant income and expenditure line in the CIES. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

23. Fair Value Measurement

The Authority measures some of its assets and liabilities at fair value at the end of the reporting period. Fair value is the price that would be received to sell an asset or paid

to transfer a liability between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The Authority measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Authority takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Authority uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Authority can access at the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – unobservable inputs for the asset or liability.

24. Presentation of Items in Other Comprehensive Income & Expenditure

The Authority does not have any transactions in Other Comprehensive Income and Expenditure which are reclassified to the Surplus or Deficit on the Provision of Services and has therefore not split Other Comprehensive Income and Expenditure into those items that will, or will not, be reclassified subsequently to the Surplus or Deficit on the Provision of Services when specific conditions are met.

25. Long-term contracts

Long-term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the consideration to the performance obligations satisfied based on the goods or services transferred to the service recipient during the financial year.

26. Overheads and support services

The costs of overheads and support services are charged to service segments in accordance with the Council's arrangements for accountability and financial performance

Glossary of Financial Terms

Accounting Period

This is the length of time covered by the accounts. It is normally a period of 12 months commencing 1st April. The end of the accounting period is the reporting date.

Accounting Policies

Accounting policies and estimation techniques are the principles, bases, conventions, rules and practices applied by the Council that specify how the effects of transactions and other events are to be reflected in its financial statements.

Accruals

The accruals basis of accounting requires the non-cash effects of transactions to be reflected in the financial statements for the accounting period in which they were earned or incurred, and not in the period in which any cash is received or paid.

Actuarial Gains and Losses

For a defined benefit pension scheme, the changes in actuarial deficits or surpluses that arise because:
Events have not coincided with the actuarial assumptions made for the last valuation; or
The actuarial assumptions have changed.

Amortised Cost

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

Asset

An asset is something that the Council owns that has a monetary value. Assets are either 'current' or 'non-current'. A current asset will be used by the end of the next financial year, whereas a non-current asset provides benefits for a period of more than one year.

Balance Sheet

A snapshot of the overall financial position of the Council at the reporting date.

Balances

Reserves held in Council funds at the reporting date.

Capital Adjustment Account

Provides a balancing mechanism between the cost of non-current assets consumed and the capital financing set aside to pay for them.

Capital Charges

The depreciation charge covering non-current assets used in the provision of services.

Capital Expenditure

Spend on the acquisition of non-current assets or expenditure which adds to and does not merely maintain existing assets.

Capital Receipts

Income received from the sale of capital assets, a specified proportion of which may be used to finance new capital expenditure and the remainder is set aside and may only be used for paying off debt.

Carrying Value

The value at which an asset or liability is held on the Balance Sheet.

Cash Flow Statement

This statement summarises the inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes.

Chartered Institute of Public Finance and Accountancy (CIPFA)

The professional accountancy body concerned with local authorities and the public sector.

Collection Fund

Fund indicating the level of Council Tax and Non-Domestic Rates received by the Council and the payments which are made from these funds including precepts to central government, other authorities and the Council's own demand.

Community Assets

Assets which the Council intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples of community assets are parks and historic buildings.

Comprehensive Income and Expenditure Statement (CIES)

Summarises the resources that have been generated and consumed in providing services and managing the Council during the year.

Consistency

Accounting concept applied in the preparation of the accounts, ensuring that the accounting treatment of like items within a period and from one period to the next is the same.

Contingent Assets & Liabilities

Possible asset or obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority.

Creditors (Payables)

Amounts owed by the Council for goods and services, where payments have not been made at the reporting date.

Current Assets

Items that can be readily converted into cash within a year.

Current Liabilities

Items due immediately or in the short-term.

Debtors (Receivables)

Amounts owed to the Council for goods and services, where the income has not been received at the end of the financial year.

Depreciated Replacement Cost (DRC)

A method of valuation which provides the current cost of replacing an asset with its modern equivalent asset less deductions for all physical deterioration and all the relevant forms of obsolescence and optimisation.

Depreciation

Measure of the wearing out, consumption, or other reduction in the useful economic life of a non-current asset, whether arising from use over time or obsolescence through technological or other changes.

Earmarked Reserves

Reserves set aside for a specific purpose, a particular service, or type of expenditure.

Events after the Reporting Period

Events, both favourable and unfavourable, which occur between the reporting date and the date on which the Statement of Accounts is signed by the responsible financial officer.

Extraordinary Items

Material items, possessing a high degree of abnormality, which derive from events or transactions that fall outside the ordinary activities of the Authority and which are not expected to recur. They do not include exceptional items nor do they include any prior period items merely because they relate to a prior period.

Fair Value

The fair value of an asset is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fees and Charges

Income arising from the provision of services.

Finance Lease

A lease that transfers substantially all of the risks and rewards of ownership of a non-current asset to the lessee from the lessor. Such a transfer of risks and rewards may be presumed to occur if at the inception of the lease the present value of the minimum lease payments, including any initial payment, amounts to substantially all of the fair value of the leased asset.

Financial Instrument

These are contracts that give rise to a financial asset of one entity and a financial liability of another. Examples include trade payables and receivables, borrowings, investments, loans and bank deposits.

Financial Year

A period of time to which a Statement of Accounts relates. The financial year of the Council runs from 1st April to 31st March.

General Fund (GF)

The main revenue fund of a billing Authority. Day-to-day spending on services is met from the fund.

Going Concern

The accounting concept that assumes the Council will remain in operational existence for the foreseeable future. This means in particular that the income and expenditure accounts and balance sheet assume no intention to curtail significantly the scale of operations.

Government Grants

Assistance by government, its agencies and similar bodies in the form of cash or transfer of assets to an Authority in return for past or future compliance with certain conditions relating to the activities of the Authority.

Heritage Asset

An asset with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture.

Impairment

The writing down in the value of an asset, owing to a change in value or use of resource.

Infrastructure Assets

Inalienable assets, expenditure on which is only recoverable by continued use of the asset created, i.e. there is no prospect of sale or alternative use. Examples of such assets are highways and footpaths.

Intangible Assets

Non-financial non-current assets that do not have physical substance but are identifiable and are controlled by the Authority through custom or legal rights. Examples of such assets are software licences.

International Financial Reporting Standards (IFRSs)

A suite of accounting standards used across the world and prepared by the International Accounting Standards Board (IASB). IFRS is the international equivalent of the Financial Reporting Standards (FRSs) formerly used in the UK. IFRSs apply to local Authorities and any departure from these must be disclosed in the published accounts.

Investment Properties

Property (land or a building, or part of a building, or both) held solely to earn rentals or for capital appreciation or both rather than for use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of operations.

Joint Operation

Joint operations are arrangements where the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement. The activities undertaken by the Authority in conjunction with other joint operators involve the use of the assets and resources of those joint operators.

Joint Venture

Arrangement under which two or more parties have contractually agreed to share control, such that decisions about activities that significantly affect returns require the unanimous consent of the parties sharing control, and joint venturers have the rights to the net assets of the arrangement.

Leasing13

Method of financing the provision of various capital assets, usually in the form of operating leases which tend not to provide for property in the asset to transfer to the Authority.

Liability

A present obligation of the Authority, settlement of which is expected to require the outflow of resources such as cash or the provision of a service.

Long-Term Debtors

Monies due to the Council which are unlikely to be recovered within a 12-month period, for example loans to third parties.

Long-Term Investments

An investment intended to be held for the medium- or long-term and will not be capable of realisation within a year of the reporting date.

Minimum Revenue Provision (MRP)

Minimum amount which must be charged to an Council's revenue account each year for the repayment of principal and set aside as a provision for credit liabilities.

Net Book Value

Amount at which non-current assets are included in the balance sheet, i.e. their historic cost or current value less the cumulative amounts provided for depreciation.

Net Current Replacement Cost

Cost of replacing or recreating the particular asset in its existing condition and in its existing use, i.e. the cost of its replacement or of the nearest equivalent asset, adjusted to reflect the current condition of the existing asset.

Net Realisable Value

Open market value of the asset in its existing use (or open market value in the case of non-operational assets), less the expenses to be incurred in realising the asset.

New Homes Bonus

A reward grant paid to Authorities based on the number of new homes built or brought back into occupation. A premium is paid for affordable homes included in these numbers.

Non-Current Assets

Asset that yields benefits to the Authority and the services it provides for a period of more than one year.

Non-Domestic Rates (NDR)

Amounts payable to local Authorities from Non-Domestic Rates properties distributed to Central Government; the County Council; Fire Authority; and the Council.

Non-Operational Assets

Non-current assets held by the Authority but not directly occupied, used, or consumed in the delivery of services. Examples are investment properties and assets that are surplus to requirements, pending sale or redevelopment.

Operating Leases

A lease other than a finance lease.

Operational Assets

Non-current assets held and occupied, used or consumed by the Authority in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Precept

Demands made upon the collection fund by Central Government and other authorities (Staffordshire County Council, Staffordshire Fire & Rescue Authority, Staffordshire Police and Town & Parish Councils) for the services they provide.

Provisions

Amounts set aside where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential. The best estimate at the reporting date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

Prudence

An accounting concept that revenue is not anticipated, but is recognised only when it is realised in the form of cash or other assets; the ultimate cash realisation of which can be assessed with reasonable certainty.

Prudential Framework

The Prudential Framework replaced the credit approval mechanism previously used by central government to control borrowing for capital expenditure. Local authorities are now allowed to determine their own capital programmes according to prudent assessments of affordability. Authorities must set their spending plans in accordance with the CIPFA Prudential Code.

Reserves

Sums set aside to meet future expenditure on specific purposes.

Revaluation Reserve

A capital reserve that records net gains (if any) from revaluations of assets made after 1st April 2007.

Revenue Expenditure

Expenditure on the day-to-day running of the Council, including employee costs, running expenses and capital financing costs.

Revenue Expenditure Funded from Capital Under Statute (REFCUS)

Expenditure classified as capital for funding purposes which does not result in a non-current asset being carried on the Balance Sheet. This would include capital grants or renovation grants to private persons.

Revenue Support Grant (RSG)

Grant paid to local authorities by Central Government to help finance its general expenditure.

Section 106 (S106)

This section of the Town and Country Planning Act 1990 enables legal agreements between planning authorities and a developer where, on being granted a planning application, the latter may be obliged to provide additional funding for specified services.

Short-Term Investments

An investment that is capable of realisation within a year of the reporting date.

Usable Capital Receipts Reserve

Distinguishes the amounts in the reserve from any capital receipts that have been posted to the Capital

Adjustment Account to reduce the Council's underlying requirement to borrow.

Useful Life

Period over which the Authority will derive benefits from the use of a non-current asset

Independent auditor's report to the members of Staffordshire Moorlands District Council

Report on the audit of the financial statements

Opinion on financial statements

We have audited the financial statements of Staffordshire Moorlands District Council (the 'Authority') for the year ended 31 March 2023, which comprise the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement, the Collection Fund Statement and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the Authority as at 31 March 2023 and of its expenditure and income for the year then ended;
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23; and
- have been prepared in accordance with the requirements of the Local Audit and Accountability Act 2014.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law, as required by the Code of Audit Practice (2020) ("the Code of Audit Practice") approved by the Comptroller and Auditor General. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Authority in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are responsible for concluding on the appropriateness of the Executive Director and Chief Finance Officer's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the auditor's opinion. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Authority to cease to continue as a going concern.

In our evaluation of the Executive Director and Chief Finance Officer's conclusions, and in accordance with the expectation set out within the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 that the Authority's financial statements shall be prepared on a going concern basis, we considered the inherent risks associated with the continuation of services provided by the Authority. In doing so we had regard to the guidance provided in Practice Note 10 Audit of financial statements and regularity of public sector bodies in the United Kingdom (Revised 2022) on the application of ISA (UK) 570 Going Concern to public sector entities. We assessed the reasonableness of the basis of preparation used by the Authority and the Authority's disclosures over the going concern period.

In auditing the financial statements, we have concluded that the Executive Director and Chief Finance Officer use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Authority's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Executive Director and Chief Finance Officer with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the Statement of Accounts, other than the financial statements and our auditor's report thereon. The Executive Director and Chief Finance Officer is responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Other information we are required to report on by exception under the Code of Audit Practice

Under the Code of Audit Practice published by the National Audit Office in April 2020 on behalf of the Comptroller and Auditor General (the Code of Audit Practice) we are required to consider whether the Annual Governance Statement does not comply with 'Delivering Good Governance in Local Government Framework 2016 Edition' published by CIPFA and SOLACE, or is misleading or inconsistent with the information of which we are aware from our audit. We are not required to consider whether the Annual Governance Statement addresses all risks and controls or that risks are satisfactorily addressed by internal controls.

We have nothing to report in this regard.

Opinion on other matters required by the Code of Audit Practice

In our opinion, based on the work undertaken in the course of the audit of the financial statements, the other information published together with the financial statements in the Statement of Accounts for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

Under the Code of Audit Practice, we are required to report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make a written recommendation to the Authority under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014, in the course of, or at the conclusion of the audit.

Responsibilities of the Authority and the Executive Director and Chief Finance Officer

As explained more fully in the Statement of Responsibilities, the Authority is required to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Executive Director and Chief Finance Officer. The Executive Director and Chief Finance Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, for being satisfied that they give a true and fair view, and for such

internal control as the Executive Director and Chief Finance Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Executive Director and Chief Finance Officer is responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they have been informed by the relevant national body of the intention to dissolve the Authority without the transfer of its services to another public sector entity.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. Irregularities, including fraud, are instances of non-compliance with laws and regulations. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

We obtained an understanding of the legal and regulatory frameworks that are applicable to the Authority and determined that the most significant which are directly relevant to specific assertions in the financial statements are those related to the reporting frameworks (the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, the Local Audit and Accountability Act 2014, the Accounts and Audit Regulations 2015 and the Local Government Act 2003).

We enquired of management and the Audit and Regulatory Committee, concerning the Authority's policies and procedures relating to:

- the identification, evaluation and compliance with laws and regulations;
- the detection and response to the risks of fraud; and
- the establishment of internal controls to mitigate risks related to fraud or non-compliance with laws and regulations.

We enquired of management, internal audit and the Audit and Regulatory Committee, whether they were aware of any instances of non-compliance with laws and regulations or whether they had any knowledge of actual, suspected or alleged fraud.

We assessed the susceptibility of the Authority's financial statements to material misstatement, including how fraud might occur, by evaluating management's incentives and opportunities for manipulation of the financial statements. This included the evaluation of the risk of management override of controls, and review of accounting policies. We determined that the principal risks were in relation to non-routine journal entries, and key accounting estimates around the valuation of council dwellings, other land and buildings, surplus assets and the valuation of net pension surplus. Our audit procedures involved:

- evaluation of the design effectiveness of controls that management has in place to prevent and detect fraud,
- journal entry testing, with a focus on non-routine transactions within identified risk criteria including, journals posted by senior officers, large year-end and post year-end journals, journals posted by system administrators and journals that move revenue expenditure to capital,
- challenging assumptions and judgements made by management in its significant accounting estimates in respect of valuation of council dwellings, other land and buildings, surplus assets and defined benefit pensions liability and asset valuations; , and
- assessing the extent of compliance with the relevant laws and regulations as part of our procedures on the related financial statement item.

These audit procedures were designed to provide reasonable assurance that the financial statements were free from fraud or error. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error and detecting irregularities that result from fraud is inherently more difficult than detecting those that result from error, as fraud may involve collusion, deliberate concealment, forgery or intentional misrepresentations. Also, the further removed non-compliance with laws and regulations is from events and transactions reflected in the financial statements, the less likely we would become aware of it.

Our assessment of the appropriateness of the collective competence and capabilities of the engagement team included consideration of the engagement team's.

- understanding of, and practical experience with audit engagements of a similar nature and complexity through appropriate training and participation
- knowledge of the local government sector
- understanding of the legal and regulatory requirements specific to the Authority including:
 - the provisions of the applicable legislation
 - guidance issued by CIPFA/LASAAC and SOLACE
 - the applicable statutory provisions.

In assessing the potential risks of material misstatement, we obtained an understanding of:

- the Authority's operations, including the nature of its income and expenditure and its services and of its objectives and strategies to understand the classes of transactions, account balances, expected financial statement disclosures and business risks that may result in risks of material misstatement.
- the Authority's control environment, including the policies and procedures implemented by the Authority to ensure compliance with the requirements of the financial reporting framework.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements – the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

Matter on which we are required to report by exception – the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

Under the Code of Audit Practice, we are required to report to you if, in our opinion, we have not been able to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2023.

Our work on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources is complete. The outcome of our work will be reported in our commentary on the Authority's arrangements in our Auditor's Annual Report. If we identify any significant weaknesses in these arrangements, these will be reported by exception in a further auditor's report. We are satisfied that this work does not have a material effect on our opinion on the financial statements for the year ended 31 March 2023.

Responsibilities of the Authority

The Authority is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Auditor's responsibilities for the review of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to be satisfied that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We undertake our review in accordance with the Code of Audit Practice, having regard to the guidance issued by the Comptroller and Auditor General in January 2023. This guidance sets out the arrangements that fall within the scope of 'proper arrangements'. When reporting on these arrangements, the Code of Audit Practice requires auditors to structure their commentary on arrangements under three specified reporting criteria:

- Financial sustainability: how the Authority plans and manages its resources to ensure it can continue to deliver its services;
- Governance: how the Authority ensures that it makes informed decisions and properly manages its risks; and

- Improving economy, efficiency and effectiveness: how the Authority uses information about its costs and performance to improve the way it manages and delivers its services.

We document our understanding of the arrangements the Authority has in place for each of these three specified reporting criteria, gathering sufficient evidence to support our risk assessment and commentary in our Auditor's Annual Report. In undertaking our work, we consider whether there is evidence to suggest that there are significant weaknesses in arrangements.

Report on other legal and regulatory requirements – Audit certificate

We certify that we have completed the audit of Staffordshire Moorlands District Council for the year ended 31 March 2023 in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice.

Use of our report

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 44 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the Authority's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

Andrew Smith, Key Audit Partner
