Introduction and background

1 Introduction and background

Introduction

1.1 The Infrastructure Funding Statement (IFS) sets out annual income and expenditure relating to developer contributions in Staffordshire Moorlands secured through "S106 agreements". As a result of recent changes to government legislation local authorities are now required to publish an Infrastructure Funding Statement which will be produced on an annual basis. Using published developer contribution data the IFS will detail infrastructure projects in order to increase transparent for communities by reporting what has been received and spent by the Council. Local planning authorities that have received developer contributions must publish an infrastructure funding statement summarising developer contributions data.

1.2 The aim of the Infrastructure Funding Statement is to give policy makers a better insight into how developer contributions are supporting new development. Developer contributions can include Section 106 planning obligations, Community Infrastructure Levy, section 278 agreements and any agreements that either secure funding towards new development. However, the District Council does not currently have a Community Infrastructure Levy in place. Section 278 agreements are secured for highways improvements and as such are reported on separately by Staffordshire County Council.

Developer Contributions

2.1 The Infrastructure Funding Statement provides a summary of all financial and non-financial developer contributions within Staffordshire Moorlands for a given financial year.

Total:				£542,431.65	

Table 2.3

2.5 As shown above, a total of £542,431.65 was received before the reported year and has not yet been spent by the authority. As shown above, most of the secured funding has been allocated for the maintenance of public open space and provision of play and sports facilities. Section 106 agreements are used to deliver open space and play space on site (or within an appropriate location within close proximity of a development) or a financial contribution to enable delivery. The funds outlined above have been received by the authority but have not yet been spent. Funds received by the Council are monitored by the relevant service area to be spent as per the Section 106 Agreement.

Statement 3d

Summary details of any non-monetary contributions to be provided under planning obligations which were entered into during the reported year, including details of—

(i) in relation to affordable housing, the total number of units which will be provided;

Site Name	Planning reference	Application type	Total number of AH
St Modwen Blythe Bridge Phase 2	SMD/2021/0418	Full	20 units, 12 affordable rent and 8 shared ownership
Capri Gallows, Alton	SMD/2021/0089	Outline	4 units - 1 shared ownership, 2 affordable rent and 1 first homes.

Site Name	Planning reference	Application type	Total number of AH
Daisy Bank Farm, Tean	SMD/2022/0199	Reserved Matters	18 units

Table 2.4

To be reported by Staffordshire County Council.

- 2.6** There are a low number of affordable housing schemes across the Staffordshire Moorlands District, therefore, development for open market housing and affordable housing has been limited. Additionally, there aren't many affordable housing S106 agreements as there also haven't been many open market homes completed. Unfortunately, housing developments are often not as economically viable in Staffordshire Moorlands when compared to neighbouring areas due to lower demand and property prices. This means that there is less money left over from market housing schemes to help subsidise affordable housing.

Statement 3e
